ESCOLA PARC DEL SALADAR

Spain -WORKSHOP

1. QR CODES

2. DIGITAL BOARD

3. MUSIC SUBJECT

3. HOMECOURT

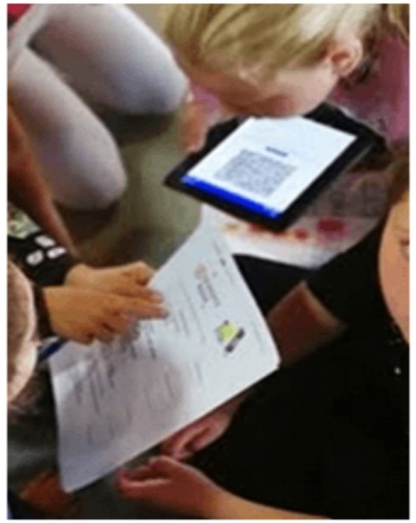
1A. QR CODES: Outdoors orientation

This year we have use the QR codes in Physical Education subject in order to improve the orientation skill of our students outdoors.The activity consisted in : they had to find the hidden QR codes all around the playground. When they find one QR Code they had to scan it and read the encrypt text which explain them the physical education challenge that they had to achive to pass to the next check point.

1B. QR CODES: Treasure Hunt - Language Subjects

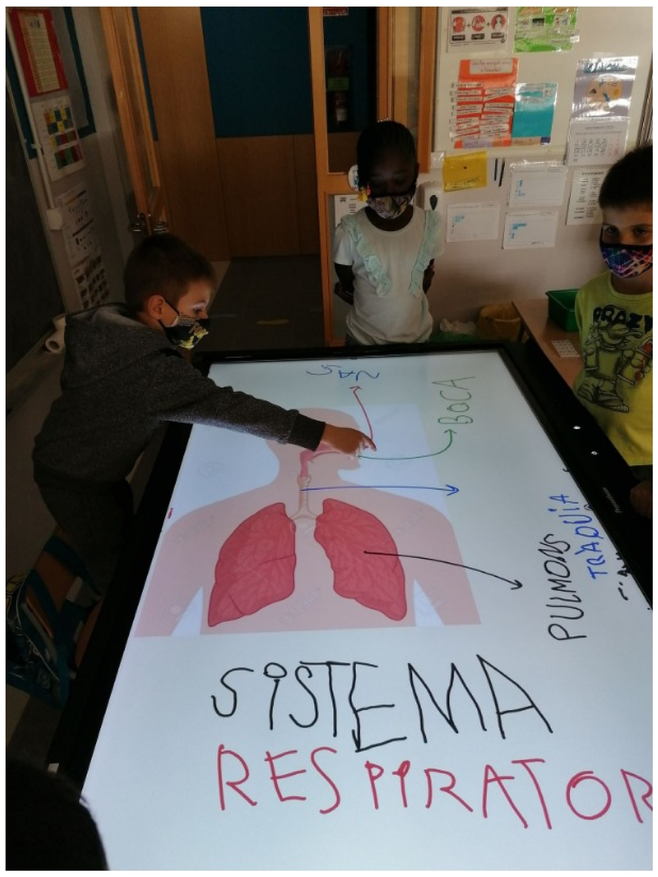
APP: QR READER

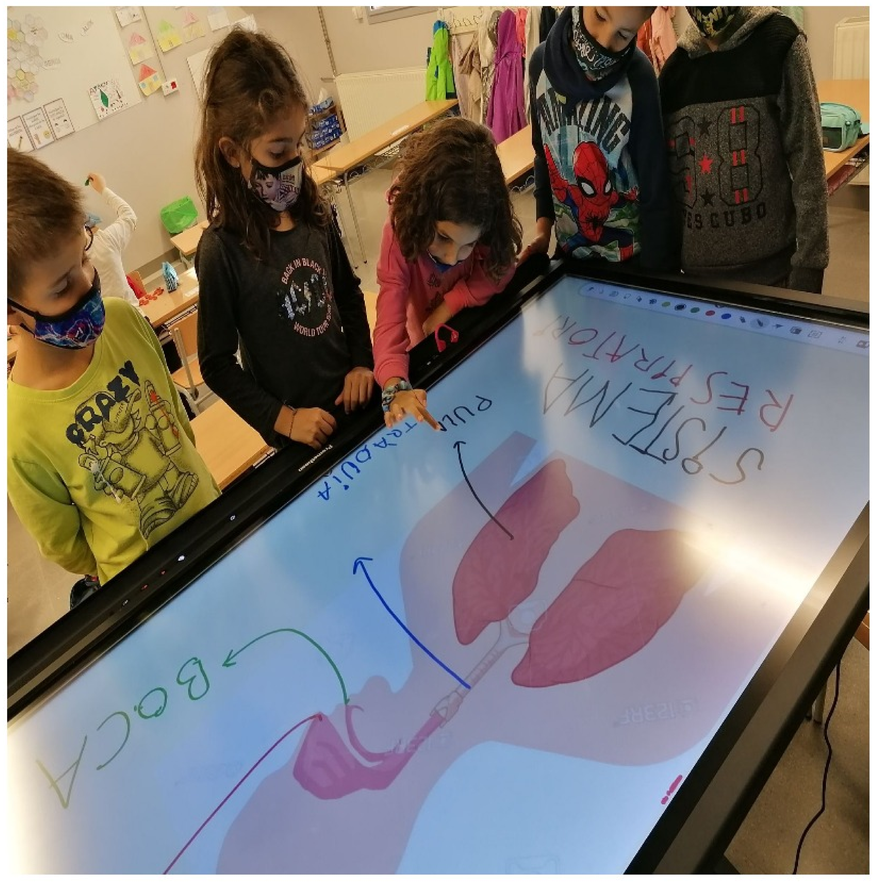
Each QR code had encrypted a small text extracted from various popular tales.

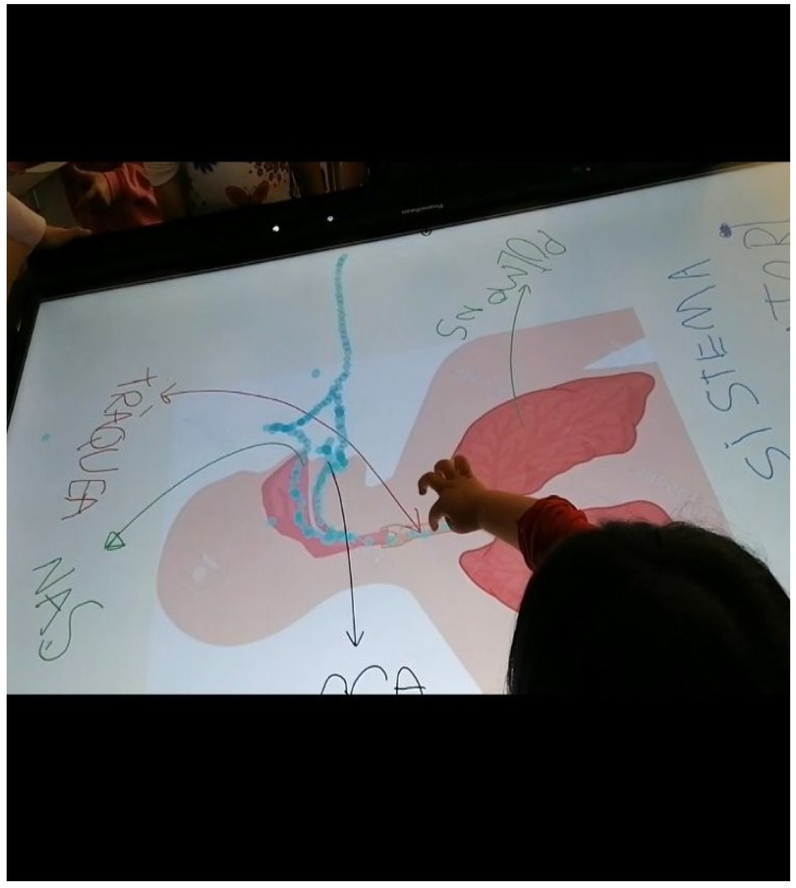


2. DIGITAL BOARD

Since we started the Erasmus project, we have bought new digital equipments. One of this is a Digital Board with a movable support, which we can move it up and down or vertical and horizontal.







3. MUSIC SUBJECT THROUGTH VIDEOCONFERENCE

To prevent that the music teacher goes to many different classes and become a risk of infection, this year the Music subject is done by videoconference

STUDENTS' VIEW

TEACHER'S VIEW

3. MUSIC SUBJECT APPS:

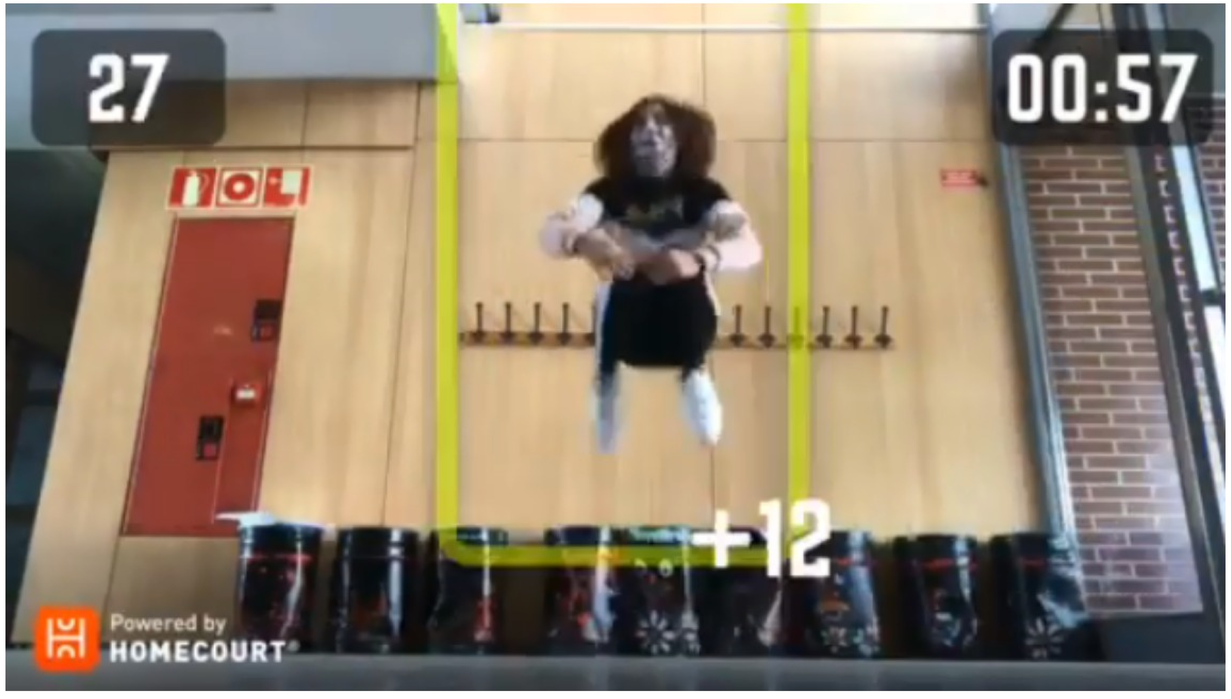
NOTEFLIGHT

KEEZY

GARAGE BAND

4. APP HOMECOURT - Physical Education subject

HomeCourt is the free, interactive app that helps anyone get better. It's the personal trainer that's always with you, capturing your performance, your stats, and your progress—guiding you to the next level.
The immersive live-action experience is powered by AR (augmented reality), with virtual targets, audio cues, bonus levels, points and badges—it's like you're inside the game. Now practicing skills is engaging, not boring, so you'll stick to it and improve more.



THANK YOU!
