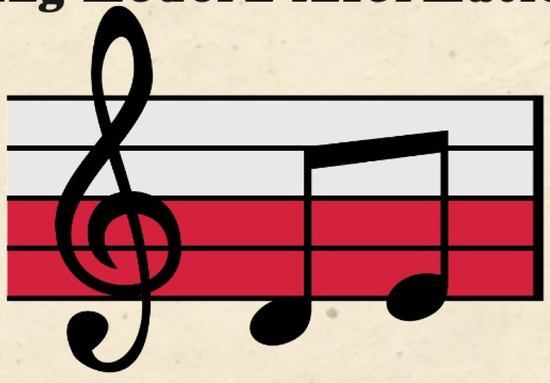
Actions related to Hero Week were extremely important in the coordinator's school Primary School no 12 in Elblag as they were included into the celebrations of 100th anniversary of Polish Independence. All taken actions, served improving students' language abilities, as the language in which the works were made was both English and Polish. Students had a chance to polish their skills in using modern information technologies.



NATIONAL SYMBOLS

All actions undertaken as part of the National Hero Week were aimed at working on the subject of "Hero", particularly the "Nation Hero", which is undeniably connected with learning about the history of one's country and nation. Actions related to this subject were extremely important, especially in the coordinator's school, as they coincided with the celebrations of 100th anniversary of Polish Independence.

POLISH NATIONAL HERO

The members of Erasmus+ club, also created a leaflet about Poland's Way towards Independence. The leaflet was written in both the Polish and English language, and later given out to students' parents and to the representatives from partner schools during the first international visit.

POLISH NATIONAL HERO

Wishing to honor the 100th Anniversary of Polish Independence, the students from classes 4-8 during Polish and English classes, wrote letters addressed to Poland with wishes and thanks for the independence. The wishes and thanks were written on postcards, the design of which was chosen in school's historical-artistic contest.

The most interesting texts of wishes and thanks were presented to the school community during assemblies and to parents during meetings with teachers. The postcards were given out among the local community. The actions also extended to school trips to historical places, memorizing important events and figures, which contributed to regaining Polish Independence

Over 100 years ago Poland disappedved from the map Europe. Polish people had to speak different language in three parts. Partners taught Polish history and prayers in Polish. MANY Poles gave their lives to save you. Small and big fought. Former Poles who taught the children the language and history of Poland secretly in the cellars. But also this did not stop Poles from fighting. Thanks to being persistent and bare we can continue to be independent.

Polish love means so much to us and we are very proud of you.
