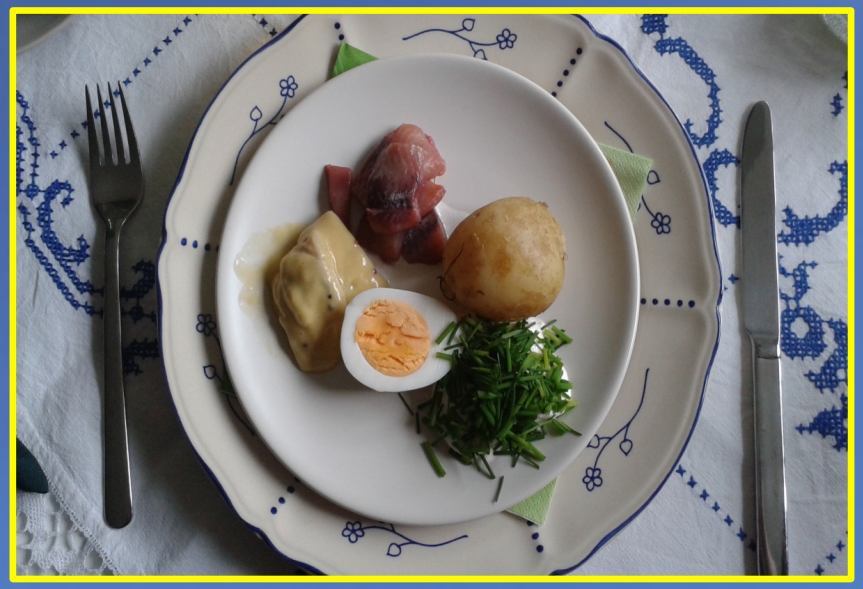
Midsummer in Sweden

June 19 - 20, 2020

We
- decorate the maypole, dance and play games around it
- eat traditional food and listen to traditional music
- pick seven different kinds of flowers and put them under the pillow to dream of our future partner.

THE MAYPOLE

We decorate, dance and play games around it – but at a distance this year.



We eat traditional food – pickled herring, new potatoes, salmon and a lot of strawberries. We also play and listen to traditional music

Midsummer Night's Eve in Sweden is a magic night

We pick seven different kinds of flowers and put under our pillow to dream about ouf future partner.

Let’s hope family and friends can celebrate Midsummer in the usual way in 2021 – holding hands and dancing together.
