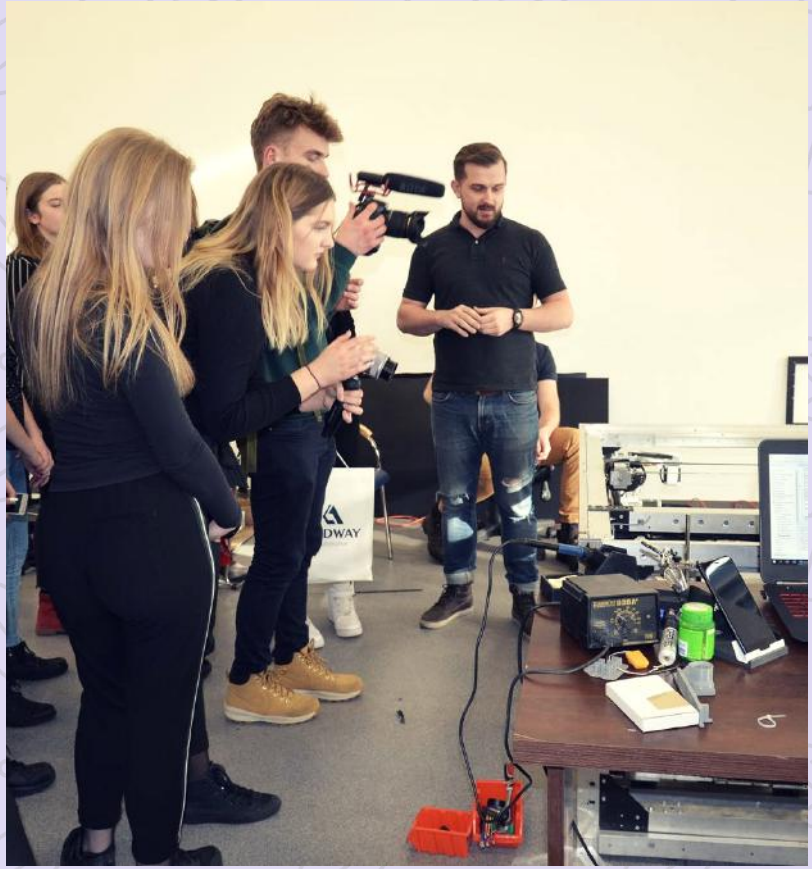
ERASMUS+ POLISH TEAM ON STUDY TRIPS

25TH JANUARY & 13TH FEBRUARY 2018

Erasmus+

AEROPOLIS

On January 26 2018 we visited Podkarpackie Science and Technology Park AEROPOLIS in Jasionka.



We visited the Center for Research and Development and the Laboratory of Materials Science and Prototyping and we participated in meetings with the founders ofstartups,that is beginning companies implementing innovative projects.

DKK DEVELOPMENT

One of the startups we had the pleasure to visit was DKK Development - a company dealing with the creation of mobile applications that serve, for example, to facilitate communication for people with disabilities

FOTOACC

On February 13, we visited a company dealing with the production of drones that are used in various fields, eg in agriculture or forensics.

RZESZOW UNIVERSITY OF TECHNOLOGY

The next point of our trip was the machinery and aerospace department where we gained knowledge about the use of robots in the industry

These trips have expanded our knowledge in the field of innovation in mechatronics and robotics. Thanks to them, we learned more about the world around us.

THANK YOU FOR ATTENTION
