

From Thibault and Julien

Here we will describe Nicolas who is seventeen years old and living in Italy,
We know he likes music and particularly flute and we suppose he wants to
create a new style music group with different instruments who just few people
can play well.

Moreover we are thinking he loves glasses and large black pullover. Is he an
adept of Metal songs?? No one know!!! But we will work on it and try to
discover the truth!

To finish we believe he lives in Sant'Agara di Mitiello. So we can imagine he
enjoy the ocean and go to the beach with his friends as everyone. To conclude I
think it's an amazing guy to meet because we are thinking about him as an
interesting and cultivated man.

To meet you!!
