

Riddle Of God

First part :

You will begin to search the name of town with the first letter of point or benchmark.

Go find the points and their register, with the coordinates geographic. For fine the points, you just go on the website French "IGN.FR".

As soon as find all points, take first letter of each points and rebuild the name of town (four letter)

Point 1 :

6° 27' 13" East

47° 30' 02" North

Point 2 :

0° 1' 50" West

43° 08' 43" North

Point 3 :

1° 34' 50" West

49° 21' 43" North

Point 4 :

6° 30' 30" East

47° 22' 59" North

Second Part :

After finding the name of the town, you go solve a path track.

Go on the website "Google maps"

Leave of crown court, and take the street who goes north, then take first right in the tall street.

After you take the third left, then street of Laurencin , and finally past in front of " Brasserie de l'Ecu" and search a historic site at around.
