## **Presentation of Giuseppe**

Giuseppe is a young italian student who lives in Sicily. He learns topography at I.T.C.G. G.Tomasi di Lampedusa.

He's 18 and probably the most great fan of music that I've never seen.

He likes to go to the concert with his friends Salvatore.

He plays electric guitar and we think he belongs to a music group. He seems to be determined in the music like in topography. Videogames, football and social networks take part of his hobbies.
