

ROBOT IN EGYPT

Made by Luna, Stefan, Quinten, H el ene, Joni & Flore (Belgium)

One day Calbo was exploring the pyramids when he heard a weird noise coming from one of the tombs.

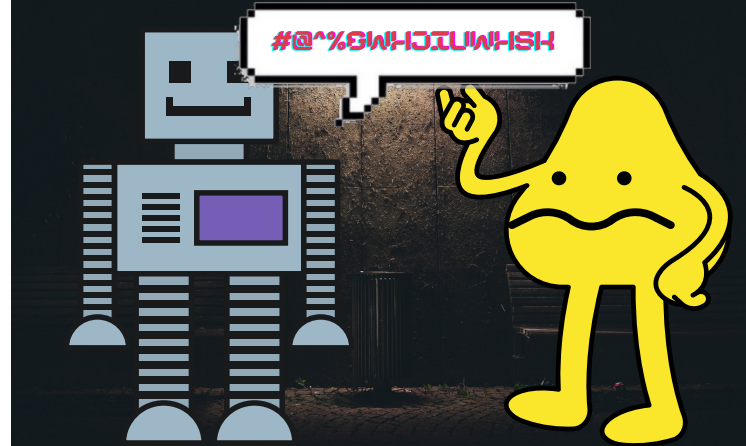

The noise was coming from a sarcophagus.

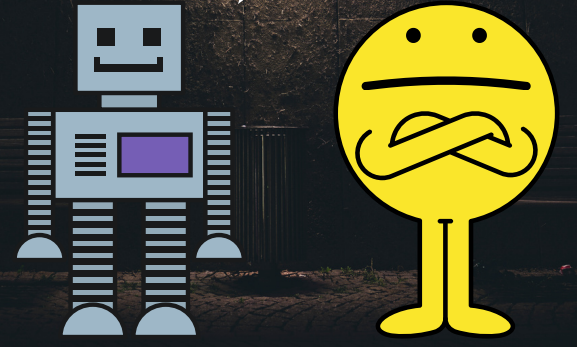

Oh my, this is very strange.

Suddenly a robot appeared.

I'm sorry, my language settings weren't set to english yet.

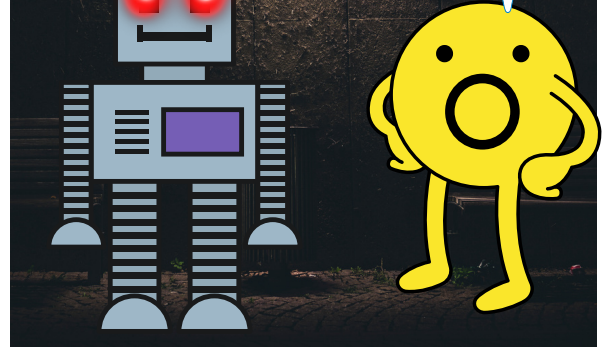

What's a robot like you doing in this pyramid?

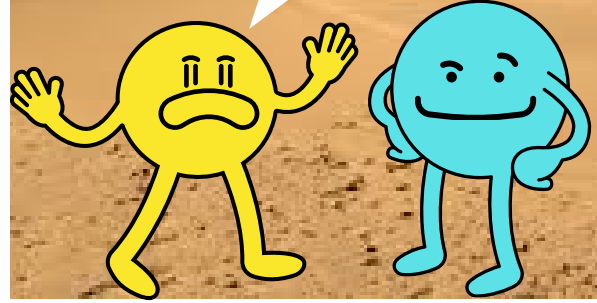

I'M HERE TO DESTROY THIS PLANET.

Oh no! I have to tell the others.

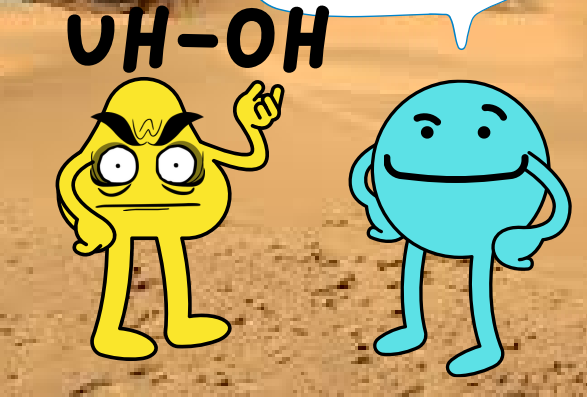

Calbo went back to the village and tried to warn his friends.

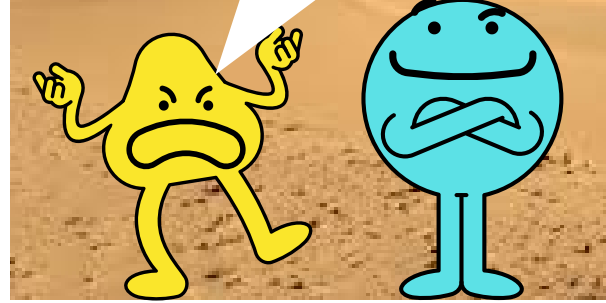

Help me! There's a robot who is going to blow up the earth.

And I'm supposed to believe that nonsense? Stop lying.

I'm telling the truth! If we don't leave right now everyone is going to die!

after telling a few more people, he decided to give up.

Never mind. I'll fly away on my own.

I'm so happy I made it out alive! Those stupid losers wouldn't believe me!

BOOM!
