Music

“Music is ... A higher revelation
than all Wisdom & Philosophy”
— Ludwig van Beethoven

“Music gives a soul to the
universe, wings to the mind,
flight to the imagination
and life to everything.”
— Plato

Why Music

“Music is the universal language
of mankind.”
— Henry Wadsworth Longfellow

I would teach children music, physics, and philosophy,
but most importantly music, for the patterns in music
and all the arts are the keys to learning. - Plato

Why Music

“Music is the great uniter. An incredible force. Something that people who differ on everything and anything else can have in common.”

— Sarah Dessen, Just Listen

Music
History
Civics
Geography
....and more

Examples of collaboration activities

★ Use music to unite school subjects: pick a music and analyse it from different angles:

- Lyrics
- Origin
- timber/tone, pitch,
- structure, dynamics, duration.
- Instruments used

Music
Maths
History
(Foreign) Languages
Geography
....and more

Examples of collaboration activities

★ Use sound to explore the world around you:

- Sound walk: **brainstorm with students the kinds/sources of sounds that they expect to hear** e.g. traffic, birdsong etc.
- They would go for a **walk and record the sounds**
- They **should write a short paragraph to accompany each file** explaining (in musical terms) the musical elements contained in the sound e.g. it is melodious, high pitched, has a loose structure, effective dynamics, rich texture etc.
