My favourite book

My favourite book is "The adventures of Dunno and his friends" by Nikolai Nosov.

Dunno is a mite who doesn't know anything and he does all kinds of stupid things. He has 15 friends with very funny and strange names. The smartest mite, Donno, makes a ballon for the greatest trip ever. But the ballon is destroyed and all the mites felt in Greenville, a town of girl-mites who save all the boy-mites friends. There Dunno learns many things and he becomes a smart mite.

The adventures told in the book are very funny.

You must read it! You will have a great experience!
