Save the world with your hearts

Lyrics

Lately I've been, I've been reducing,
Going to school cycling or walking.
And lately I've been, I've been recycling hard
And reusing using my brother's old hat.

I see pollution around my house
People using always cars
Going to the Starbucks
That is in front of your house.

No, this is so bad
Always using plastic bags
In the supermarket cash
You can bring your own rucksack

Aaaaaaah! These are the 3R's
To get the world clean and fine.
Aaaaaaah! These are the 3R's
Safe the world with your hearts.

Reduce, reuse, recycle
Everything you do makes the world polite.

Save the Planet

Lyrics

We recycle all the day

We must protect the world

We reuse some clothes

To have a better economy

We have to reduce, because

We don't want global
warming

This problema happens
around the world

Oh, the world new needs is
rules.

I was there for you

In your darkest times

I was there for you

In the darkest nights

We have to recycle

We have to re reuse

We have to reduce

Falling, falling, falling

We have to recycle

We have to re reuse

We have to reduce

Falling, falling, falling
