

Memory

Memory is a simple and fun game.

Begin by mixing the cards, placing them with the image and the letters facing the table by placing them next to each other.

The minimum number of competitors is 2 for a maximum of 3.

The first person must turn 2 cards only:

- If the cards are different, the competitor has to put them back down.*
- If the cards that are running are the same, they must read aloud the sentence that is written on the card and its continuation on the other, once the competitor comes to the torque.*

The purpose of the game is to be able to read as many phrases as possible, and to possess more

Indoor place
where...

...practicing physical
activity.

Doing physical
activity ...
