Raya

Hello!

I am Raya Hamstra and I'm thirteen years old. I was born on march 8 2007 in Groningen. I live in the Netherlands, in a city called Assen.

I live with my parents, my little sister and my two little brothers. My parents are called Berry and Anita, my sisters name is Marijn and my brothers names are Jonas and Bent. They are twins. I also have a pet. I have a cat, her name is Zappa.

The school were i'm going to, is Lariks. My favourite subject is crafts, because I like to do creative things. I have a lot of friends in my school, but my best friend lives in Finland.

I play soccer, this is one of my biggest hobbies. I have a very nice team, it's always so much fun when we're having practice. In my free time I like to read books, go shopping and watch Netflix. I also love music. I listen to music all the time, because it makes me happy and it helps me concentrate.

I would love to have a new friend abroad! like I said my best friend lives in finland. It's hard and I miss her a lot, but it's also very special to have a friend abroad. We call each other on face time a lot and send each other letters.

I would like to have another friend abroad, so we can have that same special band.

When I finish school I want to go to university. I'm not sure yet what I want to study or want to become. When I get older I want to travel the world with my friends and see extraordinary places. I also really want children later. I just want to be really happy later and have a lot of fun.

Greetings,

Raya Hamstra

Robin

Hello, I am Robin, I am 13 years old and I am born on the 27 of May in 2007. I live in Ubbena, Ubbena is close to Assen in Drenthe which is in the Netherlands. I go to the school called "Vincent van Gogh Lariks". My parents are 48 and 45 years old, my father is the owner of a mechanization company, which mostly sells tractors and other machinery. I have a big friend group with the boys in my class, they are called: Jeroen, Jesse, Sven, Ruben, Vincent, Chris, Teun, Mads and Gijs. My taste in music is mostly 90s Rap (Eminem, dr dre ,50 cent etc.) but I also like 80s rock. My favorite food is kale mash (in Dutch boerenkool) I have been practicing Judo since I was 7, I have the green belt. I have 2 cats, one is a red, white cat (very chonky) and a black cat, I also have a puppy that is 14 weeks old, she is called Nysha. I do not have a favorite movie, my favorite book is Podkin one ear and I have multiple favorite games: minecraft, the legends of Zelda (pretty much the hole series especially, breathe of the wild) and Pokémon ultra moon and shield. I think I would like to have a new friend because: it would be cool to talk to someone new. When I am grown up, I want to be a police officer (lol I know its cliché).

Jeroen

Hi Lucy or James or something else,

Hello, my name is Jeroen. I from the Netherlands. I'm 13 years old and I live in Laaghalen. That's a hamlet South of Assen (and Groningen). I like to live in Laaghalen. I love the peace and the space in Laaghalen.

I live in Laaghalen with my mother, father, sister and pets. We have two dogs. The first one names Sage and the other one names Tessa. We also have three cats. They are called Merlijn, Hummel and Misty. I consider Merlijn like a king. He becomes fatter and older. He's 4 years old. Hummel is a grey cat. As he got older, he bacame more playful. Misty is an old cat. It's a female. 1 year ago we were scared that she was she undergoes death, but she came back.

My favourite sport is football. I'm playing at HHCombi. That's a little club. I'm a winger: I play on the front left of the field.

My hobby is cycling. When I'm cycling I go to a village and come back to home or I make a round. A beautiful place in Drenthe is Orvelte. It's a touristy little village with many farms.

You don't know how do I look. But I can give a description. My eyes are green. I have short darkblond her. I have rancid feet like a dragon. Something dirty: I have short nails, because I bite nails.

I think it's difficult to have a friend abroad, because you never know what someone is togehter in a video call or on the street. But I think it's nice for some people for their social skills or language skills.

I want to become doctor or scienist..... or archaeologist. Actually, I don't know what I want to be when I grow up. The future is open!

Have a nice day,
Jeroen

Carly

Hello unknown

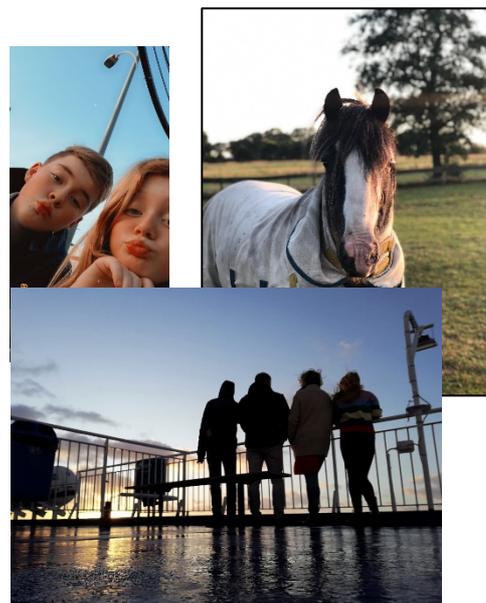

I'm Carly Eisses, 12 years young. I was born in Assen in 2007. And I live with my parents and brother in Smilde (the Netherlands).

In my spare time, I'm often outside, with my horse Kobus. My sport and hobby therefore is also horse riding. Despite that it is very busy at school I am also often found at my grandmother's home.

I live with my parents and brother in Smilde. My brother's name is Owhen and he is 15 years old. He goes to the same school as me. Hendrik Jan is my father and he is 43 years old. He works as a purchase manager at Winel in Assen. Of course I can't forget to mention my mother, Alita, she is 37 years old and works for Drenthe College as a senior communications advisor. I have blue eyes and I'm a ginger. I'm very happy with my hair in this beautiful color. With the hair color also comes my very light skin and a lot of freckles which like a lot! I have to beware of the sun to prevent myself from becoming fully sunburned.

At school I have a cool bunch of lovely friends, Ilja, Renske and Phaedra. I think that school is mostly hard work, but together with this group it is not boring at all. Also in my hometown I have nice people I love, Donna and Robin. Robin I've known since I was 4 years old. I've never been in her class, but I know her because our parents have been friends for a very long time. I know Donna through another friend, she was Donna's neighbor. We connect very well and have loads of fun all the time recording TikTok's and watching Youtube videos together.

In the future I would like to be a doctor. Preferably a GP, because then you can help other people and you can be in contact with new people. I think the training to become a GP is very difficult because you need to learn everything about the whole human body and mind. I really want to help people with mental issues, and people in pain. My mom and I had a conversation about what I wanted to become when I start my daily job as an adult... then my mother said: **'you're very social and like to help people so I think becoming a GP would be the perfect choice for you'**. I think she has a great point there. This was a little story about me!

Ilja

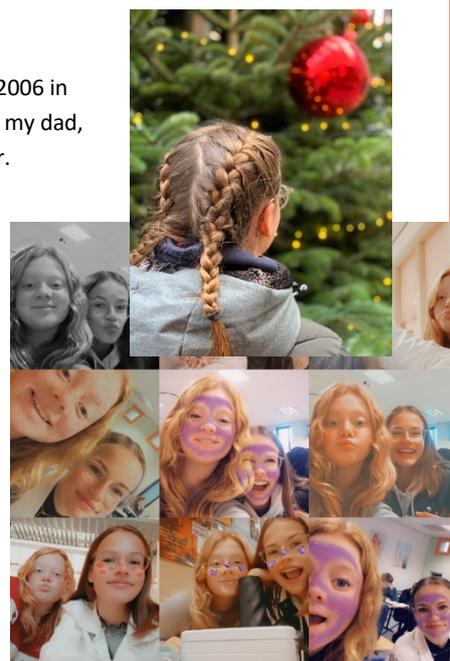

Hello,

My name is Ilja Veenema, I am 14 years old. I have brown hair and brown eyes. I was born in 2006 in Hoozeveer, the Netherlands. Now I live in Beilen together with mom, she is 42 years old, and my dad, he is also 42 years old. And I have a sister, she is 12 years old. My birthday is on 30 September.

I have two very nice hobbies. One of them is scouting. I love to go to scouting because most of the time you are outside. You learn to survive and you learn a lot of first aid. We do all kinds of outdoor activities. About eight times per year we go out camping. My other hobby is playing music. I play the flugelhorn. That is like a trumpet but then a bit bigger. Every Monday I play in a fanfare with other people. Also I go every Thursday to music lessons with a music teacher. At these lessons I practice for my music exams.

When I go out to meet my friends we usually chill or we go shopping and we also like to talk a lot with each other. My favorite book is Ranger's Apprentice and my favorite films are action and fight movies. It's nice to have a new friend abroad because it is nice to speak to someone else. Friends abroad can learn you other things of other cultures and live styles. While doing this in English you practice a lot.

I don't know what I want to be yet, it is a bit too early for that. But I really enjoy baking sweet things. I like baking cakes and cookies. But I wouldn't want this as a daytime job but more as a hobby. I also really enjoy making a movie for myself and calling and texting friends.

Katharina

Hello,

My name is Katharina Rutgers, and I'm 13 years old. My birthday is on February 26th, so I'm nearly 14! I was born in the Wilhelmina hospital in Assen in the Netherlands, in 2007 at exactly 7:01 PM. The doctors all said, that I was too small. I was small, but it was not dangerous for me. When I came home from the hospital, the whole family said: Ooh, what a cute baby! If now someone says that I'm cute, then I say: I'm not cute!!!

I live together with my parents, little sister and little brother. My father's name is Eric and he is 51 years old. My mother's name is Anette, and she is 45 years old. Then we have my sister, her name is Elisabeth and she is 10 years old, and my brother, his name is Andreas, and he's 8 years old. I also have an uncle, aunt and grandpa. We always have dinner together on Fridays, but now that cannot continue because of COVID-19. My uncle's name is Harm-Andries, my aunt's name is Aljona and my grandpa's name is Wybren, but we always call my grandpa, *pake*. That's the Frisian word for grandpa.

My hobbies are painting, drawing, reading and playing the piano. What I like to paint are: landscapes, portraits and fantasy figures. I mostly draw manga figures, landscapes and real humans. I really LOVE reading, I read every night and on my birthday I always ask for books☺. The genres I most love to read are novels, fairy tales, fantasy, adventure and real live tales. Then finally I also play the piano. When I play the piano, I mostly play classical music, but on holidays like Christmas, I also play Christmas carols.

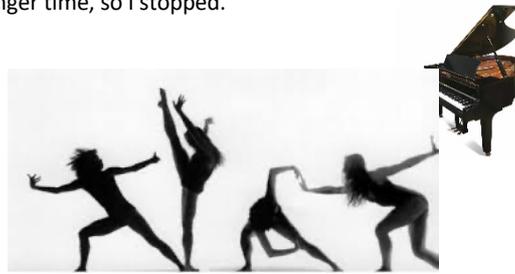

I don't do sport at the moment, but I would like to do jazz ballet. Because, when I was young, I did ballet for several years, but it wasn't quite what I wanted to continue doing for a longer time, so I stopped.

This was my letter, I hope you liked it!

Greetings,

Katharina Rutgers

Debora

My name is Debora, I am 13 years old and I live in Rolde, in The Netherlands. I don't know whether this is very interesting to read for you, but I hope you will read it with a little bit pleasure. When I am older I want to get to be a professional writer, I am now already writing a book about a decapitated streetlight. In that book I am thinking about how the lamp came down from the streetlight. One of the ways is that there were two wizards who were duelling and (not on purpose) decapitated the streetlight. Another way is that the streetlight was alive and wanted to be unique. I am still thinking about other ways, so if you know another way, let me know!

I live in a terraced house with my father, he is 44 years old, with my mother, she is also 44 years old and with my little brother, he is 11 years old. I have got six very friendly friends: Rivka, Joyce, Wendy, Katharina, Esther and Rianne. Every one but is on the same school as I, only Joyce not, she is from my old school. In my spare time (the time I am not at school) I like to make my homework (yes, I like to make my homework, I know it sounds weird, but it is true!), to draw, to craft, to write and to read. I read many books, I think I mostly like fantasy books but I don't really have a favorite. I also play the piano and I play badminton.

Why I think it's nice to have friends abroad? Because it's always nice to have friends and I think you will learn a lot about other cultures and languages and countries and your English will get better from it.

I have to end with my future plans, I kind of told them a little bit, but what you don't know is that I also want to become a teacher. So, that kind of was it...

Bye!

Debora

Sven

Hello, my name is Sven, I'm 13 years old and live in Assen for around 6 years.

I really like playing video games with my friends: mostly Minecraft, because there are so much things you can do, such as building, fighting and minigames. I also really like to play with my friends because otherwise it would be boring. I also really like to play the old 3d mario games. And I really like to watch all sorts of youtube videos, most of the youtube channels that I watch are English speaking, and lately I have been watching a lot of documentaries about all sorts of stuff. My mother is called Lydia, she is an stand-in worker at schools and my dad is called Fred and he teaches people to sort of become a police agent. I also have a younger brother he is named Ivan and he is almost 11 years old, he sometimes can be very annoying, but he also can be very sweet. I am also quiet interested in space and science, and the solar system in general.

I live in a terraced house in the neighborhood called Marsdijk, it is a very nice neighborhood with a lot of nice people. When I am older I want to do something in the IT kind of side because I also am very interested in coding and programming even though I am not very good at it now, or start my own business so I can do things in my way.

I always think it is good to make new friends because you can do a lot of things together, such as playing video games, visit theme parks, water parks, etc. And it also could be very useful too if you need advice or something like that. Jesse

Jesse

My name is Jesse Ter Haar and I am thirteen years old. I live in Drenthe, in Assen. I have brown hair, blue eyes and I often wear a hoodie and jeans. The colours I wear the most are blue, white, grey and black. I am a second grader. I do pre-university education(VWO), and Greek and Latin. Greek is my favourite subject on school.

I have two parents, who are both fifty-two years old, and are called Marjan and Betrick. I also have four brothers and a sister, their names are Micha, Alec, Nathan, Stefan and Linda. Micha is nine, Alec fifteen, Nathan eighteen, Stefan twenty-one and Linda is twenty-three.

I also have two guinea pigs, they are called Oliver and Dikkie. They are both two years old. Oliver is brown, white and black and has short hair. Dikkie has long hair, and the same colours. I also have two cats, and they are called Jade and Suzi. One is thirteen and the other is also thirteen.

The friends I go along with are Gijs, Mads, Sven, Robin, Ruben. They are all my classmates.

I don't do any sports. My hobbies are drawing and gaming. My favourite series of books is De grijze jager. My favourite food is pizza and spaghetti. My favourite game is Minecraft. My favourite animal is the guinea pig, because they are really cute and soft. I don't really watch films that often, but my favourite films are Star Wars.

I think it's nice to have a friend abroad because I can learn about their culture and language. I can also then practise my English, because otherwise I will talk to them a lot, I think, and they probably won't understand Dutch, and I won't understand their language.

For my future I certainly want to do something with animals, because I really enjoy doing stuff with them, so I probably will study something like biology.

Gijs

Hello, I'm Gijs van Haren and I'm thirteen years old I will be fourteen on the twenty-fifth of May. I live in Assen it's the capital of Drenthe, I live there since I was one. I do pre-university education on a school in my town(csvvg lariks). I have different colored eyes, one is a bit grey and one is brown and my hair color is brown. My hobbies are playing video games with friends, I usually play Minecraft, another hobby is football I play this three times a week on Tuesday, Thursday and a match on Saturday. My favourite food is pasta and then of course fusilli. I haven't a big family my grandparents and other "older people" from my family passed away quite early. My last grandma passed away when she was 69 not very old, but my other grandparents even sooner. My mother's name is Sandra she's forty-eight years old and works by a hospital nearby(wza), my dad's name is Wim he is fifty-four years old and he works in an office in the center of the city that's named Drentse Landschap. I have also one sister her name is Sophie she is fifteen years old and she also plays football just like me at ACV. At school I have a few nice friends that I can get along with, an example is Mads, he's a bit small but very nice. I like it to have a friend from another country, you learn something about his culture and his lifestyle. Where he lives is another climate, clothing style and other dishes, what you don't see in my own country or city. My future plans are that I want to go the Higher Vocational Education or the university, then I want to go work maybe as a financial controller.

Greetings Gijs van Haren

Rivka

Hello! We have got this assignment to write an e-mail. To introduce us. Okay, fine. Now let's ignore this weird intro and let me introduce myself.

I am Rivka Broekema, I'm 14 years old, and live in Beilen with my mother, step-father and little sister.

My friends are awesome, they are always there for me and like me the way I am.

I play the violin and go to scouting every week.

To sketch an image of myself, I have blond/white, curly hair that makes me look like a sheep (which gave me nicknames like poodle, sheep, candyfloss and snow white) I have blue eyes and I stand out quite a bit.

I have to tell about diverse points (which I marked to have a good view of who I am) and the next one on the list is favourite book/movie/game, so that is easy. I don't play much games unless online puzzles count. I like to solve sudoku's and that kind of stuff. Favourite books/films on the other hand, is a little bit more difficult. I am a huge Harry Potter fan, I've read the books far too many times and know them by heart. When the movies are playing I can say almost every line with the characters. The results are quite entertaining. I also like the Hunger Games.

I would like to have a friend abroad because we could talk about difference in culture and language, and still find some similarities.

Now I have to talk about future plans. Well, to be honest, I think I don't know yet. There are many options, and a lot of roads I can follow. First I think I should finish school. What I'll do next will come later. Maybe I'll try to solve the mystery of time travel. I would like that. Well, I have told you a lot, like I was asked. Have a nice day and be happy!

-Rivka Geertje Johanna Broekema

Why I think it's nice to have a new friend abroad

I think it's nice to have a new friend abroad, because you can learn from each other and the cultures where they live. And you can speak about the differences of your country.

My future plans

I will get my diploma of the high school and further I don't really know what I want to become I like almost every job what you can think of. So that is going to be a really difficult choice.

Phaedra

Hi!

I'm Phaedra, a 13 year old girl from Drenthe, Holland (The Netherlands).

About me

I love dancing (I'm also pretty good at it if I say so myself :)) and do it 2 times a week. I also really like painting, especially by numbers. I'm not very good at drawing, but I like to do that sometimes aswell.

I love to be with my friends Renske, Ilja and Carly. Unfortunately because of covid-19, I ofcourse can't hang out with them as much as I'd like to. I actually only see them in school.

My favourite movie is Christine and my favourite series is Hanna.

I also love Christmas (:

Family

I live in a detached house with my father Wim (49), my mum Bianca (46) and my brother Lo (14). I also have pets: a dog called Jaap, a cat called Maki (and 5 sheep).

I was born in Amsterdam, but my parents decided to move to Assen when I was around 2 years old. The rest of my family does live in Amsterdam, so we go there a lot (mostly for birthdays): around every other week. It takes at least 2 hours to drive there, which isn't great because I get car sick. That also means that I can't watch movies or series, read or anything else. Basically the only thing I can do to not get car sick, is listen to music and stare outside.

Why I think it's nice to have a friend abroad

I think it's great to have a friend abroad because it's something else. It's also amazing for developing my English. It's also never bad to make another friend, the more the merrier! (up to a certain number ofcourse)

Future plans

To be honest, I don't really have any future plans, the only thing is that I want to finish highschool. After that I'll figure out what I want to do next.
