

# Erasmus + LO-VE

Learning Outdoors - Vivid Exploration

Co-funded by the  
Erasmus+ Programme  
of the European Union

Our project LO-VE promoted inclusive education, counteract students' sedentary lifestyle while promoting positive use of technology, and make a long term and more vivid impression on their learning through the use of international, outdoor education.

# Community

We managed to create a big community. Pupils learnt about a world where cultural, linguistic and religious diversity is part of our life. They respect other cultures and learnt from them. Teachers and students shared a wonderful atmosphere.

# Outdoor learning

Teachers and students valued the opportunity to learn outdoor, showing that another way of learning is possible.

# ICT learning and innovation

Students improved linguistic competences and digital skills. They started using eTwinning and apps like Quizizz and Kahoot.

# Gastronomic culture

Sharing food and costumes was a fundamental part to get to know each other better.

# Cooperation

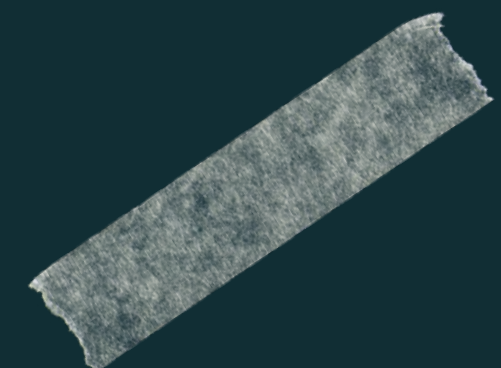

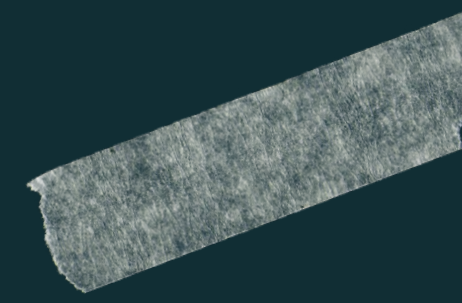

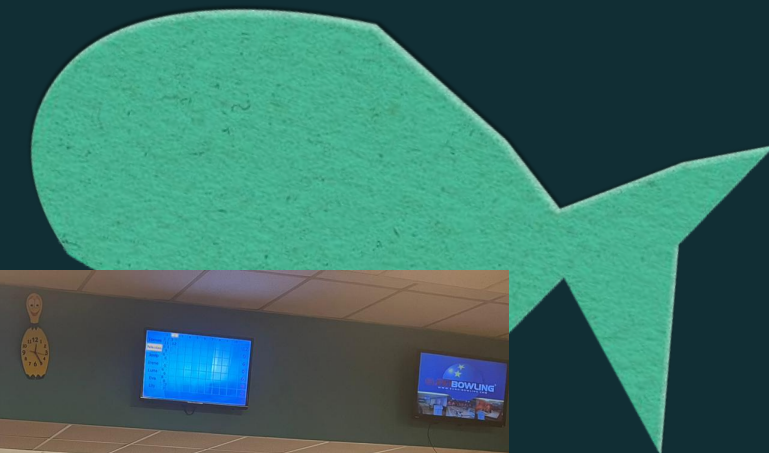

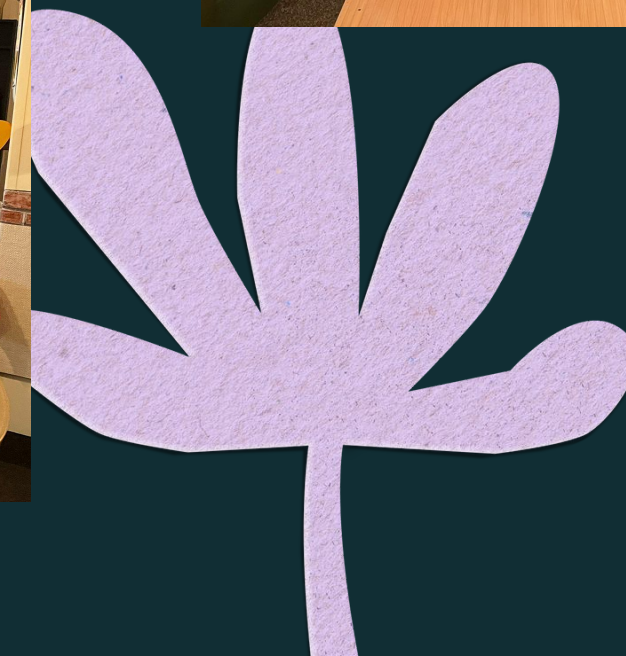

We shared experiences and learnt from our partners. We made many activities proposed by them, which is a considerable enrichment.

# Friendship

Students had the opportunity to foster relationships, that they will never forget.

**Thank you!!!!**

**Lo-ve was possible because of you.**

With love to ,  
Croatia, Slovakia, Portugal,  
Czech Republic and Finland.
