## Skolekassa

- Skolekassa.no is a multilingual website with educational resources designed for children and young people of school age who have recently arrived in Norway.
- The Ministry of education and research decided that Skolekassa should be established and the Directorate for Education and Training has been responsible for the development in cooperation with NAFO and Oslo Metropolitan university.
- Skolekassa was launched in februar 2016 due to large influx of refugees to Norway. Many of the resources are freely available.
- Skolekassa covers five subjects: Norwegian, social studies, mathematics, science and English. You can choose your preferred language: Norwegian, English, Arabic, Dari, Pashto, Tigrinya or Kurmanji.
