ACTIVITIES OF THE SHORT-TERM JOINT STAFF TRAINING EVENT

1. Indicate 1-2 things or activities you found positive about this short-term joint staff training event .

I loved being involved in such a great school with such good teachers. But one of the activities I liked was a presentation that two students developed to show me all the achievement they got during the project. Another great activity was the chance to join some sport activities and some sports we don't usually play in Spain.

2. Write 1-2 things that could be changed or improved to make next short-term joint staff training event better.

I couldn't ask for more, really. Everything was really good planned and I could see all the teacher in the school were really involved in the Erasmus project and in my visit as well.

3. What are the learning outcomes of this experience that you think might be interesting for your own colleagues in order to stimulate in your own school new ideas for planning and teaching? Name 1-3 learning outcomes

I brought to Spain some English approaches the Austrian team were developing in the school during English classes. I also share with my colleges some interesting ideas for new projects to come.

OTHER COMMENTS

Please write here if there are any additional comments that you would like to add to this questionnaire:

I would like to thank the Austrian team for the amazing time I had there. It was a very busy and interesting week full of activities, having time enough to get to know the local culture and landscape. It is really good to find people like this in order to improve as a teacher and to enjoy the experience Erasmus projects allow us to live.

THANK YOU FOR YOUR TIME
