

*Primary School No 7
with Integrated Classes
in Elk*

Our pluses are:

integrated classes,
modern Information
Technology classrooms,
a renovated gym hall,
a modern sports field...

a new playground, a double common room,
a canteen, specialistic lessons for pupils with special
needs.

Health education is important for us. Pupils and teachers make fruit and vegetable salads together. We take part in "Fruits and vegetables at school" and "Milk at school" programs.

During "Bread week" all school smells like bakery (respect for bread is a Polish tradition).

Swimming lessons are obligatory for 2nd and 5th grade students.

Showing history and music in untypical way is very attractive for pupils. We also have sewing lessons.

During the school year there are academies on the occasions of: Teachers' Day, International Earth Day, The Independence Day, Integration Day with Autistic People and many others.

Teachers' Day

The Independens Day

Integration Day with Autistic People

The first classes' school year inauguration

A special day every year in our school is a Family Day. On that day pupils, their parents and teachers take part in various games and competitions.

Football game between teachers and pupils' parents also takes place on that day. Of course that photo was taken before... ;-)

Our pupils can take part in many competitions, charity actions, cultural events and performances all school year long.

Festival of Science

**Spring Contest
between classes**

Christmas play by
integration class

Dancing
group

Teddy-bear's
day

Our unique musicians

Autumn show

Last year, young musicians from Eurajoki (Finland) visited our school

Another special guest

No commentary
needed...
Let's dance !!!!
