

ECO week October 2017 project "Eco-active" form 4 7-8 years old) in primary school "De Weijerwereld" Boxmeer.

A presentation by Julia and Ruben as a closing of the project item "Water".

Julia: This week we learned a lot about water in form 4!

Ruben: Water is very important, you can't live without water.

Julia: In a movie two children Wouter and Wiesje showed us why we have a water pipe and how it is created.

Ruben: We, the pupils of form 3 and 4, did a lot of water experiments.

Julia: We learned where the dirty water is going to and how you can clean it.

Ruben: We learned about the water cycle. Fortunately there is always coming new water.

Julia: Boats can float on the water and you can play music with a water organ.

Ruben: A cup of lemonade in the freezer makes a nice ice cream!

Both together: And....after these lesson we will eat all the ice cream. Yes!
