Italy

THESE ARE MY CLASS MATES

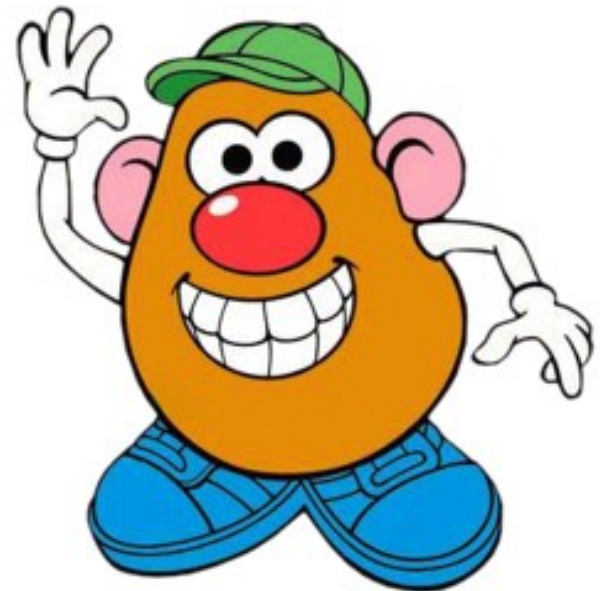

He's our teacher,
he's staying with
us and he's very
happy to teach
us how to
recycle!

Hi! I'm Mr
Potato

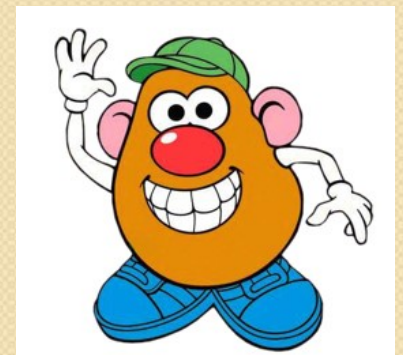

Now we tell
you stories
about...paper,
glass, plastic
and food!

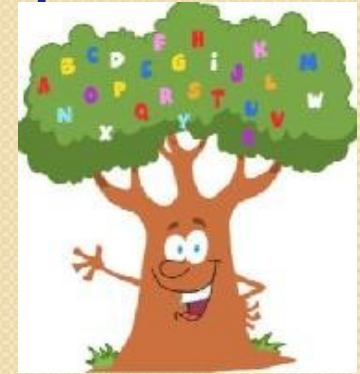

What we
recycle?

The paper story

If you **recycle**.... 1000 Kg of paper
you

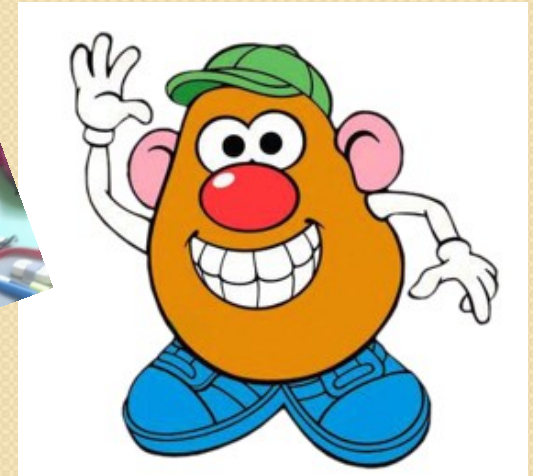

SAVE

15 trees

99% of water

65% of energy

We produced...a flower for you!

THE FOOD'S STORY

To grow healthy is
necessary, first of
all, a healthy diet!

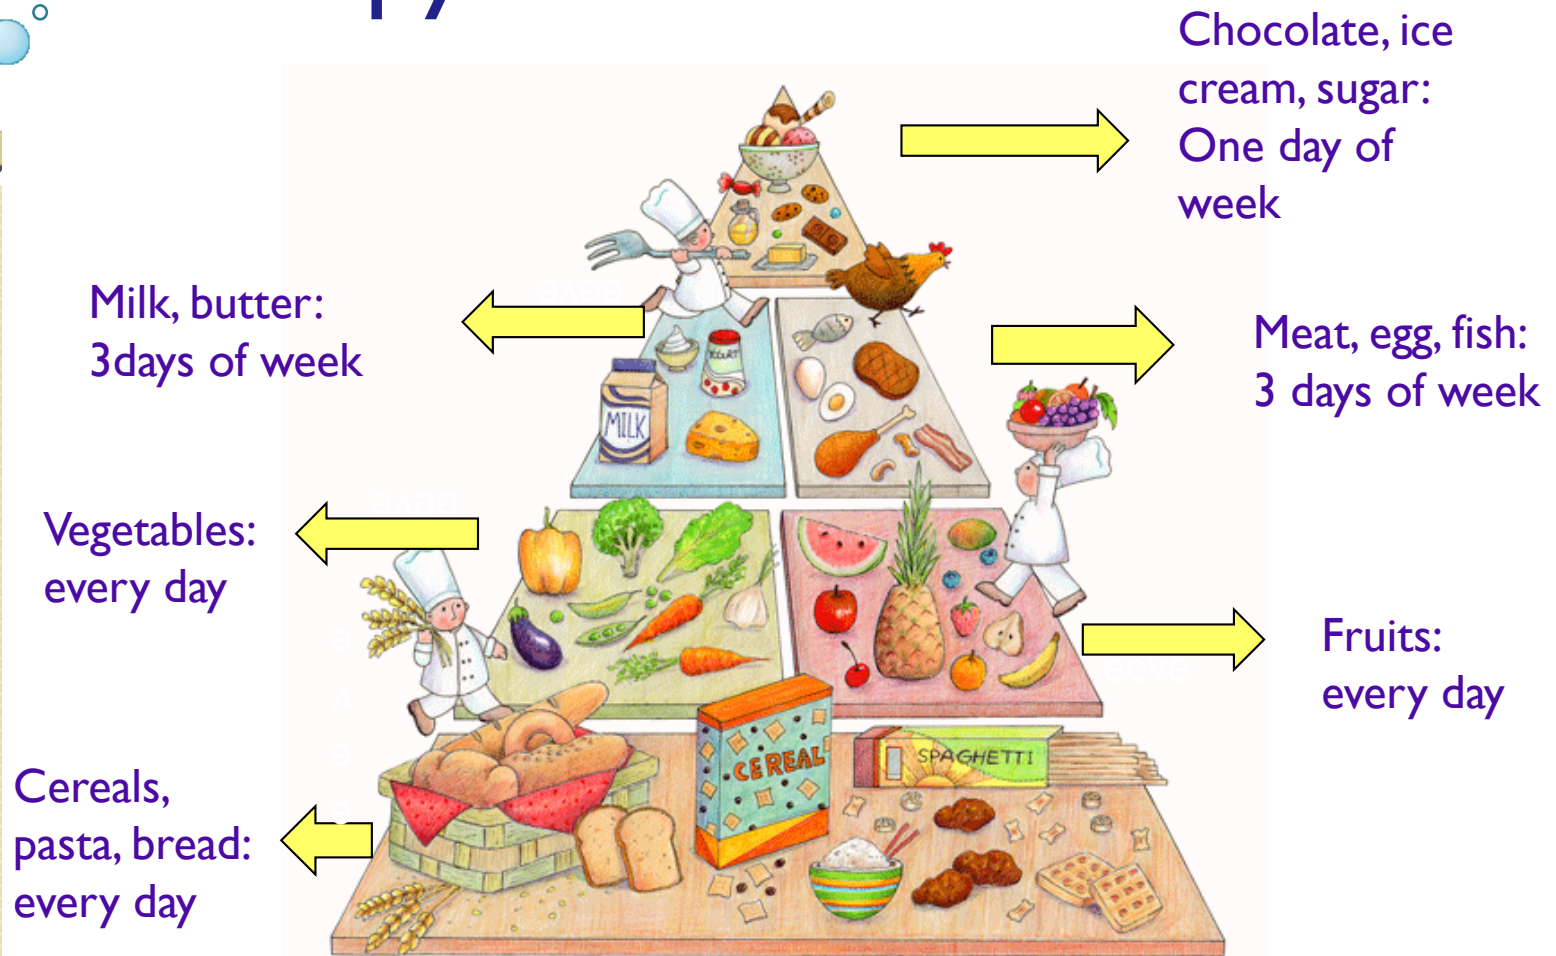

The Mediterranean diet

is a modern diet inspired
by Greece, Southern
Italy, and Spain

The Mediterranean diet: food pyramid

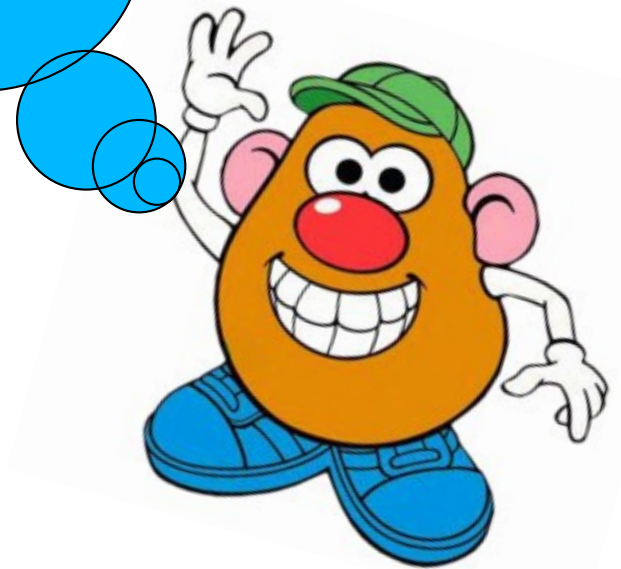

When we eat, we
have enviromental
impact!

Don't waste!
But Reduce
Reuse and Recycle
left food
Please!!

In Italy reuse...

clothing, shoes,
sofa, dishes
and glasses,
bags for
food...where
we start?

Frumat: It produces paper and leather from apple residues

Smart Materials: it produces plastic from vegetable residues

Orange fiber: It produces organic and ecological fibers from processing citrus residues

...Bye...bye!!
