

ECO-ACTIVE Erasmus+ programme newsletter 1.09.2017 – 30.11.2017

Another school year has started and the second year of our project "Eco-Active" Erasmus+.

In the second year of the project students of all partner schools collect batteries.

Students prepared multimedia presentations and games related to the second thematic area of our project "Water".

PRESENTATIONS and GAMES on water presented by all partner schools in Slovenia:

Pupils studied the pollution level of Temenica River and took part in a whole day educational and ecological trip to get to the spring of Temenica River.

Teachers from every partner country conducted classes in international groups:

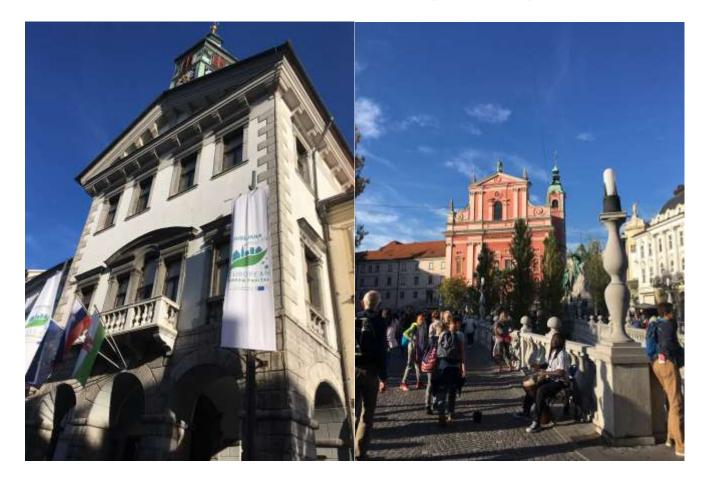

Teachers participated in: Eco-school training, "Water Agent": presentation of the project for teachers, detailed presentation of school system in Slovenia:

During the meeting the project coordinator carried out the evaluation after the end of the first year of the project and discussed the tasks to be implemented in the second year of the project.

Visit in the capital of Slovenia - Ljubljana, which in 2016 became the Green capital of Europe.

The trip to Postojna Cave created for many years by water:

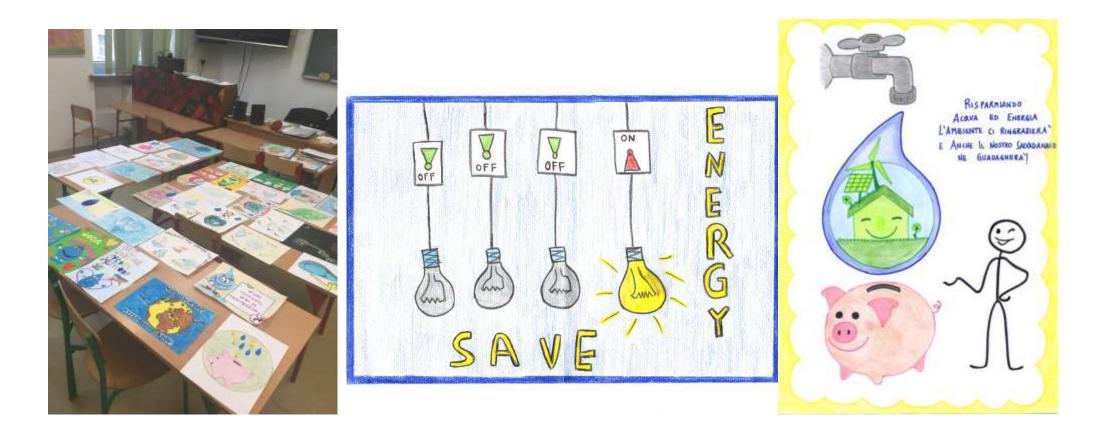

All schools announced a competition for stickers "Save water and energy".

The results were announced in Polish school on 15 November. 110 pupils delivered their projects.

The best works of the students were awarded.

Two best works will be printed and soon will be placed in the school bathrooms and classrooms in every partner school.

Videoconferences took place:

-Slovenia-the Netherlands -Poland-Italy -Latvia-Poland

LATVIA:

SEPTEMBER

In the beginning of September students took part in educational lessons in Tervete's nature park, where experts had prepared some eco activities

In the school there was a vitamin week: tee day, vegetable day, bread day, jam day, water day.
Experts of ZINOO center conducted lesson "Water filtering"
The Sticker contest was announced
We prepared games and presentations about water.
We were preparing materials for visit in Slovenia.
The school got an Eco School certificate.
OCTOBER
Children were drawing stickers.
Parents in class lessons were informed about second year tasks.
Excursion for winners in the waste paper contest.
There was a Porridge day in the school - Students of primary school tried many kinds of porridges, got to know about ABC
of nutrition.
NOVEMBER
We have collected 163,62 kg of batteries.
The sticker contest "Save water and energy" has finished.
Masterclass about nutrition at businesswoman store – students from 5-9 class
Collect waste paper
We continue the contest "Healthy family menu for the week"
Contest about water and domino game "Water"

The report of the visit of the Latvian pupils and teachers in Slovenia and earlier in Poland was published in a local newspaper in Latvia:

The Netherlands:

 \rightarrow From the beginning of the school year - a bin only for plastic in every classroom and the teachers room.

 \rightarrow Pupils created games about water and also a PowerPoint presentations about water

→The children of form 8 made games about water and also a PowerPoint presentation about water for the visit in Slovenia

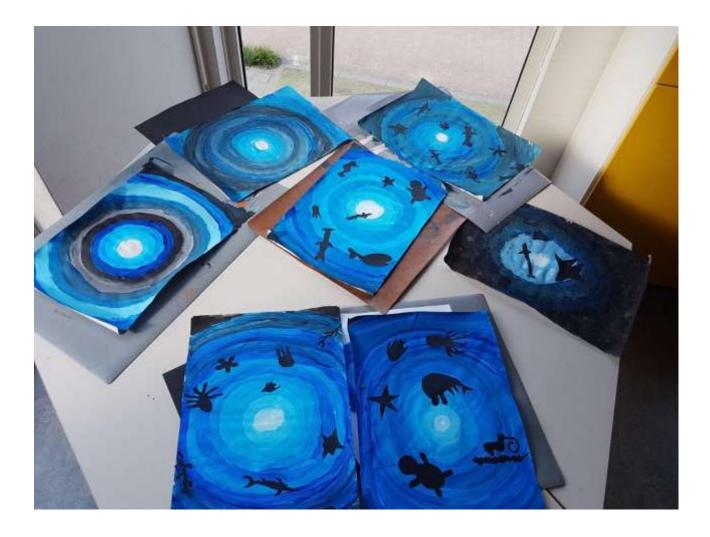

→The whole school had almost two weeks; from October 3th till October 13th project weeks about water. Meeting with the officials from the town hall. A presentation for all the parents of the school. Every class performed activities about water.

 \rightarrow Healthy breakfast on November 7th in every class. One class went to the town hall and had breakfast with the major.

 \rightarrow Two groups went to the taste centre for lessons about food.

 \rightarrow the Dutch school prepared also a new page in the twinspace, the "surprise page".

The article reporting the visit of the Dutch pupils and teachers in Poland (May 2017) was published in a local newspaper:

BOXMEER | Een basisschool die met leerlingen naar het buitenland gaat; die zijn er niet veel. Hoogstens een dagie Kernwasser Wunderland in Kalkar of misschien Bobbejaan Schoepenland in Belgiä. De Weijerwereld in Boxmeer staat zijn vleugels veel breder uit en stuurt regelmatig groep-achters Europa in.

Door Henk Battussen

Leerlingen en leerkrachten lieren rustig terug naar de klassen. Een brandalarm had even eerder ledereen spoorslags bij wijze van oefening naar buiten gestuurd. Geen sprake van paniek. De Weijerwerelddirecteur Stijntje van Esch kan tevreden zijn. Dat is ze ook over het internationaal project Eco-Active. een driejarig Europees project over milieu en duurzaamheid met de Rotterdamse Erasmus Universiteit Dat maakt het mogelijk dat enkele Wegerwereid-leerlingen regelmatig een week in het buitenland vertoeven. Binnenkort vertrekken er zes met vier leerkrachten voor een kteine week naar Slovenië waar het thema water centraal staat. "Deze school doet dat al jaren', zegt Van Esch. 'Je moet aan veel voorwaarden voldoen om mee te mogen draaien in een project. De regels zijn daarbij onlangs weer aangescherpt Maar we zijn vorig jaar weer met een nieuw project gestart. Samen met cholen uit Polen, Slovenië, Letland n Italié, Sicilié om precies te zijn * le Weijerwereld heeft gepokt en

Weijerwereld-beerlingen en begeteiding waren afgelopen mei een kleine week in Polen in het kader van Eco-active.

gemazelde leerkrachten in huis die zich met hun opgedane over een dergelijk internationaal project kunnen bekommeren. Daarbij ook Huub Creemers, intussen gepensioneerd maar nog met hart en ziel verbonden aan de internationalisering van zijn oude school. Scholen die ervoor in aanmerking willen komen dienen bij de Erasmus Universiteit hun plannen in: Secuur moet het op schrift worden gesteld wat ze met hun leerlingen willen gaan doen, aan veel voonwaarden moet zo'n aanvraag voldoen. Het lopende project, het zevende in successie, begon vong jaar oktober. afgelopen mei ging de eco-trip van enkele Boxmeerse leerlingen en leerkrachten naar Polen waar recycling centraal stond, Na Slovenië, gast volgend jaar mei de

reis naar Italië, in november naar Letland, en in mei 2019 komen vertegenwoordigers van de scholen in Boxmeer op visite. 'De rest van de leerlingen houdt zich hier op school dan ook met het thema water bezig", zegt Van Esch. "Ze skypen bayoorbeeld met andere scholen. zingen liedjes over water of schnyen elkaar brieven. Zo maken ze kennis met andere culturen. Leerlingen die naar het buitenland willim, moeten een motivatiebrief schrijven. Ze moeten langer van huis durven zonder ouders en wat Engels willen en kunnen spreken is ook een eis." De kosten worden door subsidies gedekt. "Alleen de vervanging van leerkrachten die in het buiteriland zijn betaalt de school zelf." s oktober wordt het Stovenieproject teestelijk geopend.
