

Violet Team

Hello, we are the violet team (Maria, Giovanni, André, Marko, Martina, Tatiana, Ramona and Austèja) and we want to make a presentation about what we saw and did during this week.

On the first day...

We all the students from the different countries met in Palermo where we went sightseeing and saw many monuments like Palazzo della Zisa, Piazza Pretoria, Cappella Palatina, Cattedrale, Piazza dei quattro canti, Martorana and Teatro Massimo. After the sightseeing we got free time and went for shopping. This day was rich in art and we started to know each other better and at the same time we enjoyed the culture of Palermo.

On the second day...

In Milazzo we met one another at school and then we went to Gigliopoli and visited Santa Claus home. This place was built for children with difficulties and who need help. After that we went for a walk in Capo Milazzo but the weather was really bad so the bus made tour in Capo Milazzo. Despite the weather our mood was not ruined and we felt amazing. We had lunch at school and we tasted typical street food of Sicily like: arancini, pidoni, calzoni, mozzarelle in carozza and at the end big cannoli. After lunch we started our website.

On the third day...

We went to Candit frucht factory and we saw a production of 100% natural juice and candy. Also, we saw how the baby food is produced. After that we come back in Capo Milazzo and we had a long walk to "Piscina di Venere". It was really spectacular view because it is a natural swimming pool. We were very amazed by this spectacular view. For the lunch we ate pasta al forno , lasagne and sweets like sospiri and cassatine. It was a really awesome day. After this we heard all presentations about logistics.

On the fourth day...

- We went to the eolian islands. We climbed to the volcano and saw a huge crater. After the volcano we went for a walk around the island. There was a really bad smell of zolfo. After this we went to Lipari island. Lipari is the biggest island of the eolian islands. We had the bus tour around the island. We felt exhausted because of long walking around volcano but also really great.

On the fifth day

At the fifth day we to Etna. We went up by the funicular. We saw beautiful mountains covered by snow and we made a snowman all together and played snow war. During our walking we didn't see anything because of the fog. Then we went down and got a hot chocolate in a typical "tavola calda". After lunch we went to Taormina and we went for shopping under the rain. It was really cozy and beautiful city.

On the sixth day...

- *Now we are preparing a presentation for you to keep memories of our trip. Hope you enjoyed it.*
