Team 3 English Scenario

Dear Muhal,

How was your day? We went to Acropolis. It was an amazing archeological site. You know that I love historical places and I really enjoyed it. While we were climbing up to the Parthenon, Kristina twisted her ankle. When she screamed so badly we ran up to her and tried to help her. We called an ambulance. When they arrived, we carried her to the ambulance. She was afraid. We went to the hospital with her. I was crying for her, I was terrified. The doctor took her up and examined her. Then the doctor told us that there was nothing to worry about. We were so afraid because she was crying and she was not feeling well and her ankle was in pain. After the examination we went home safe and sound. She took some pills and rested for the rest of the day. So it was all about our day. I hope yours was better.

Yours sincerely,

Peter :)
