

Question 1:

Generally the students agreed that the activities were relevant but some students did not understand the relevance of some of the planned activities – or that some activities were designed to improve teamwork in other contexts.

Question 2: How would you evaluate the following?

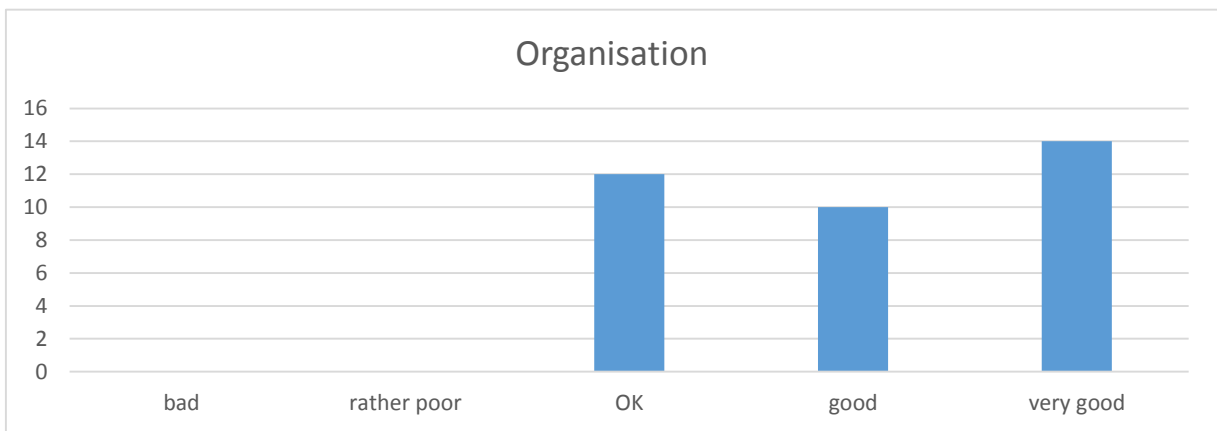

Star Coaches were contacted after the visit and the problems encountered on the York visit were explained to them. The problems encountered using public transport on the Friday morning have been noted by the Ryburn Erasmus+ Team and this activity would not be repeated.

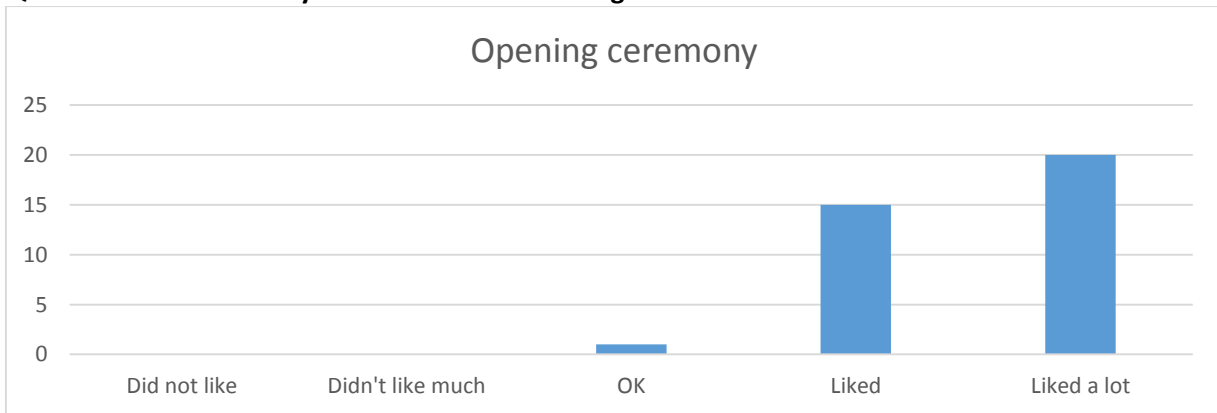

Ryburn March 2017 Feedback summary

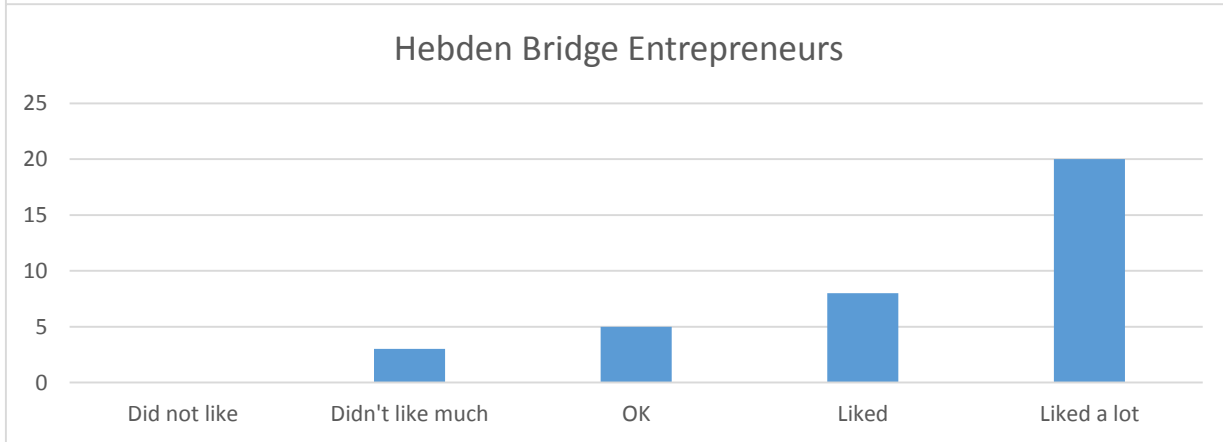

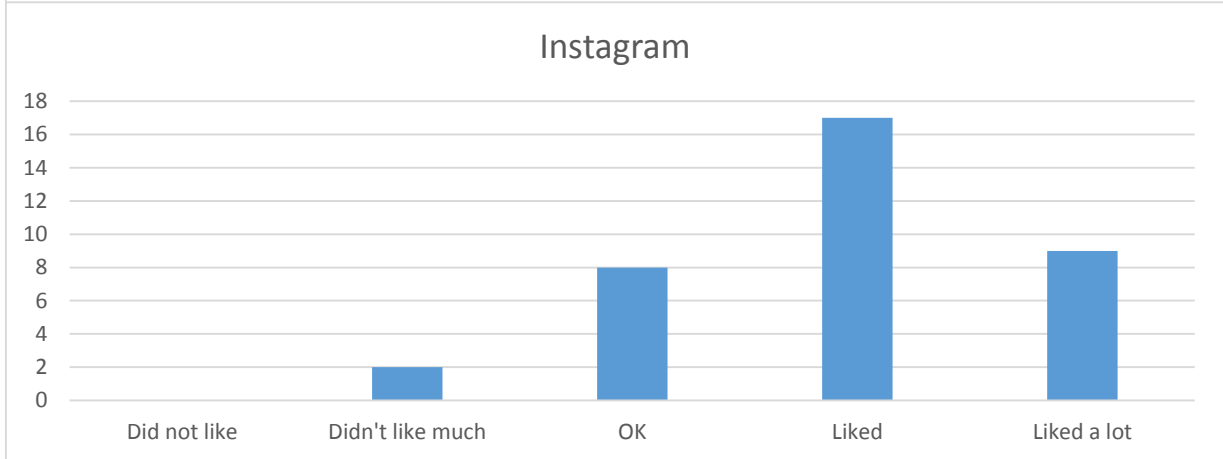

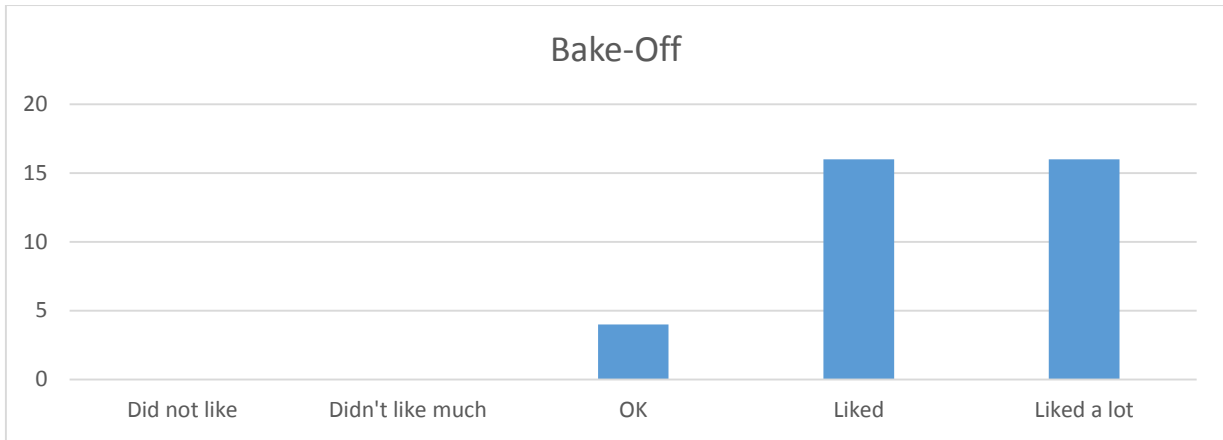

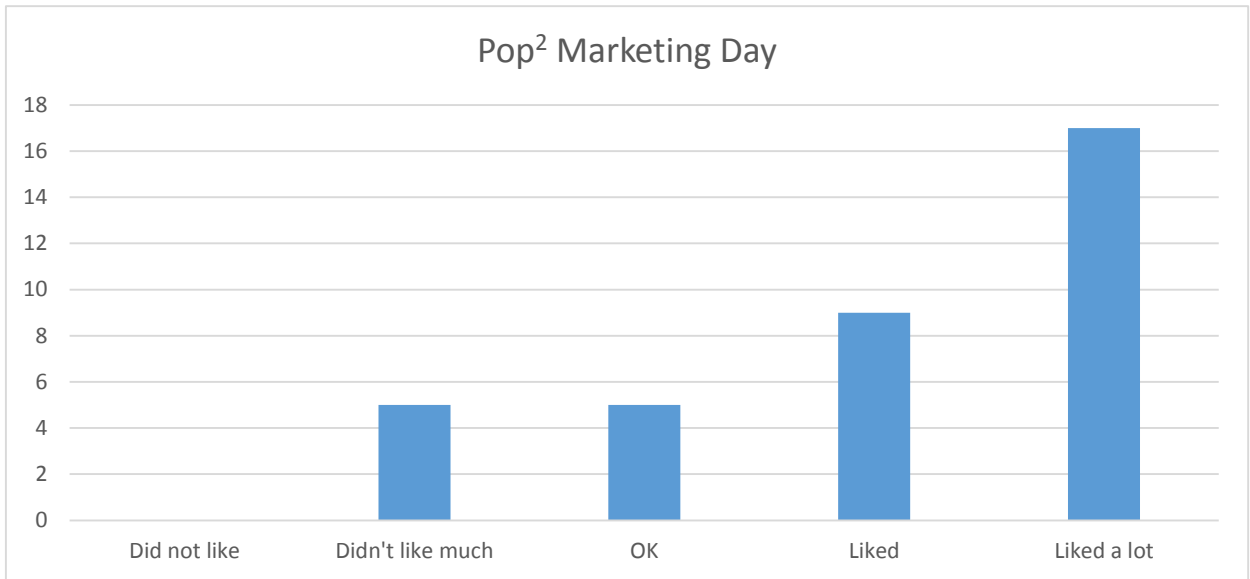

The main complaints about food were school lunches. The questionnaire did not allow us to evaluate food on Wednesday (the buffet) or the Curry evening. The school lunches provided for our visitors were the same as those provided on a daily basis to Ryburn pupils.

Question 3: How would you evaluate the following activities?

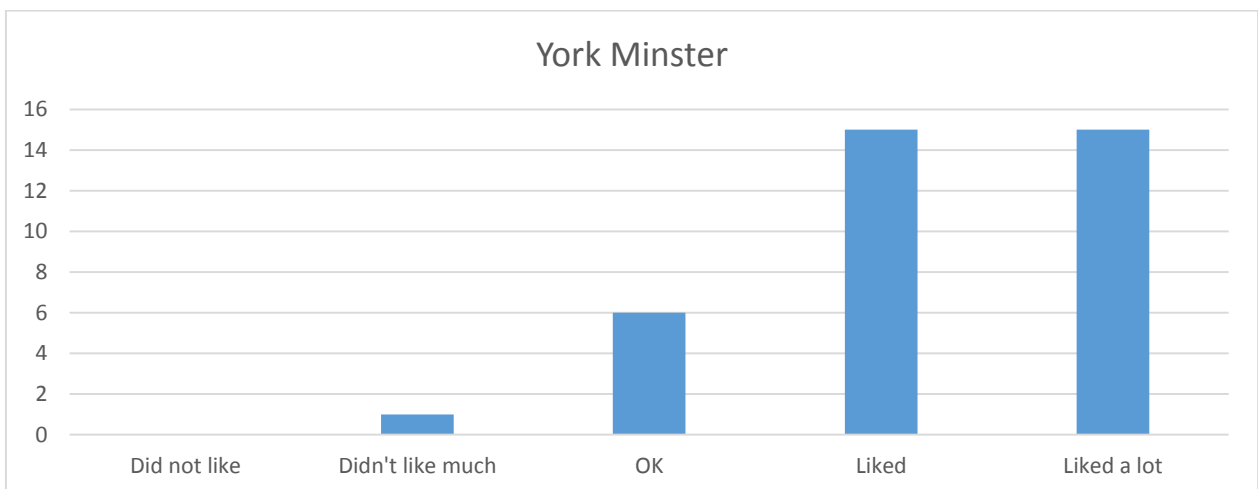

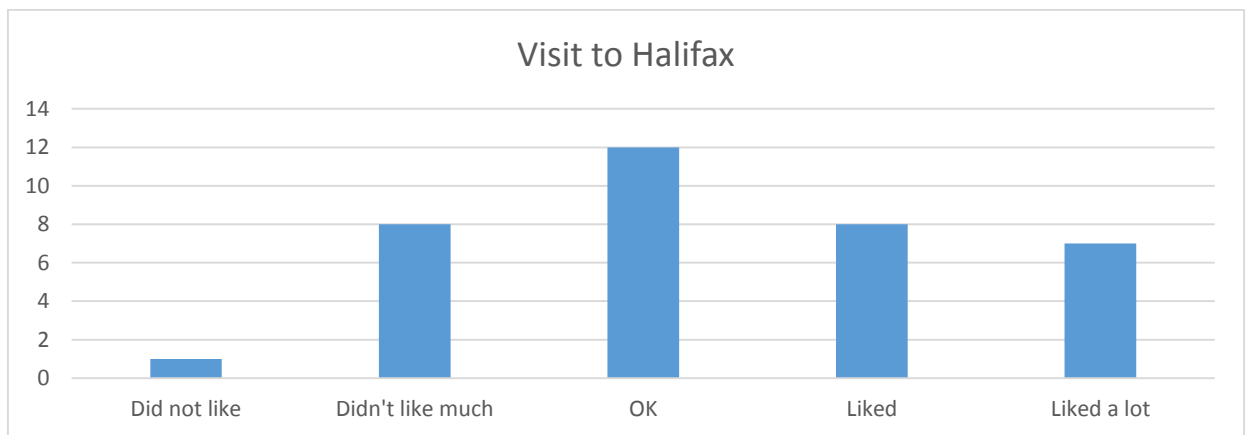

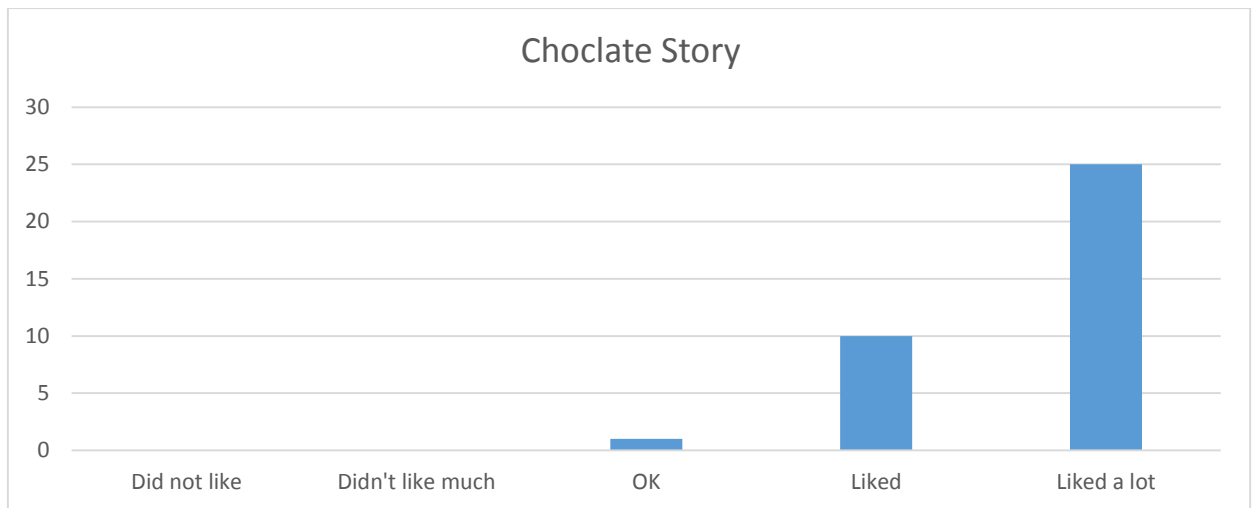

The reasons given for negative evaluations were that students found the activity pressured and stressful, working towards deadlines.

Ryburn staff felt that this meant that they were actually experiencing a proper entrepreneurial situation where it is normal to work under strict time pressures!

Although the bad weather didn't help, transport issues contributed to a more negative evaluation for this activity than for others.

Question 4: Which of these activities in your opinion were the most connected with the idea of the project?

- Marketing Pop² because it was like running a real business
- Entrepreneurship interviews in Hebden Bridge
- Great Erasmus+ Bake-Off
- Curry evening because the most important thing about the project ("in my opinion"...) is to make new friends

Question 5: What did you like the most about your stay here and why?

- People and their hospitality
- York Chocolate Story
- Marketing Pop²
- The landscapes
- Visiting York because it is a beautiful city

- The curry evening with games
- My host family: “seriously hospitable”; “made me feel like I was at home”
- Meeting new people and making new friends
- Everyone was really nice at school
- Interacting with different nationalities
- Meeting friends from previous trips
- Improving English language

Question 6: What did you like the least and why? What do you think we could do in order to improve the implementation of the project?

- School food (Sorry! That’s what we have!)
- Marketing Pop2 because it was too stressful
- The Instagram activity was a little boring
- The weather – but you can’t do anything about that!
- Some of the host students were too young
- The nights weren’t planned (nothing to do).
- Some activities were too organized!
