ERASMUS+ KA2 – Empower Students with Entrepreneurial Skills

Interview teacher

1.	To what extent has the project "Empower Students with Entrepreneurial
	Skills" responded to the needs of the students in our school grouping?
	The implementation of the project has helped our students become more
	self-confident and motivated. In addition to it, students have become
	more aware of the importance of promoting their own educational and
	professional growth on an international level. As a result, more and
	more students are interested in taking part in a E+ project - After getting
	their final diploma, some participants have decided to take part in a new Et project (1/2-Worth work experience abroad) In your opinion, how did the project contribute for a positive image of our
2.	project (1/2-Month work expenses abroad)
en.	school?
	The project has reported high levels of satisfaction among students,
	porents and teachers. Our main stake holowers (local public institutions
	and business somewhat have shown a sent to the public institutions
	ound business companies) have shown great appreciation for the efforts mad
	to foster entreprenential skills among learners. School emolment has be
	partition of the test of the t
	positively affected by the successful implementation of the project_
