A green story

A group of children was camping at the edge of a dense forest.

They were careless and they lit a fire too close to the trees.

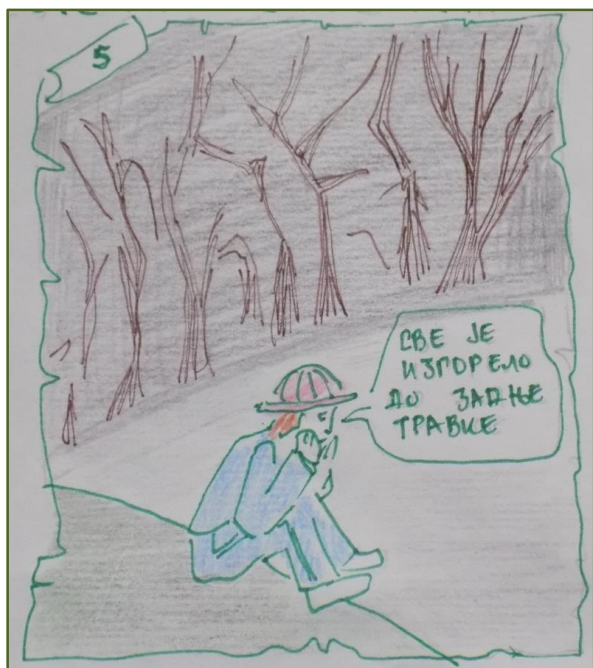

Suddenly, the wind started blowing and the fire broke out.

A firefighter was desperate: "They're running away instead of helping to put the fire out."

The forest dwarves came to help but it was too late.

The forest was burnt down.

All of a sudden, a forest fairy appeared and restored the life to all plants by her magic dust. The forest animals had their home again.

The forest is green again now and we hope the campers have learnt the important lesson, too.
