Something about me

Hi, My name is Nela and I am 13 years old.
I am from Poland and I live in Warsaw.
I hope you will like it.
So let's move on to my description!

My description

I am tall and quite slim girl. I have short wavy blonde hair, green eyes and freckles. I don't like my wavy hairs so usually I make them straight, or I have messy buns or braids. I really like experimenting with them. I really like my long eyelashes but they are so light like my eyebrows so usually I wear make up.

Clothes that I like wearing

I really like wearing comfortable and sporty clothes but sometimes I like to wear something tight. Mostly I wear black clothes because black is my favourite colour ,of course with purple. These colours are so good looking on me so this is why I wear them.All of my shoes are withe . I don `t know why but they look so beautiful. But the downside is that they get dirty quickly.

my personality

I think I am calm and sympatish girl. I am so patient and usually crazy. Sometimes I am very lazy, I can sleep all day. When I am painting I am very creative I can paint everything! Usually I am very sensitive and modest.

My hobby

My hobby is dancing. I really love doing that. I dance hip hop. It gives me a lot of fun.

I think you must try it. I really like drawing too. I love scratching and painting. Sometimes when I have free time I like skateboarding and roller skating. I think I am really good at it. I also like reading books . I know you can say it is boring but it isn `t.

My siblings

My siblings are sometime nice. I have two sisters and one brother. Sometimes I like him but he is often so annoying. My younger sister is so annoying too. She takes my clothes all the time, it pisses me off but I can always trust her. My oldest sister is so loud. She all the time she sings or listens to very loud music. I think I am the most normal person from my siblings.

My favourite foods

My favourite food are toast with nutella and lasagna. They are so delicious. If you haven` t tried it you have to do it! I am not kidding. I really like popcorn too. But it must me with butter and a lot of salt
My favourite drinks are coca cola and tea. Raspberry tea is so tasty.

Animals

I have a dog. Her name is Zoja. She is a little fat but I think it makes her so sweet. I would like to have a little cat or hamster. They are so sweet.

My favourite animals are wolves and elephants.

I don` t know why but they are so cute.

I really like dogs too. They are the cutest animals in the world.

Films

My favourite films are Twilight, Harry Potter, Royal Princces, Last Song and Barbie.

If you didn`t see these films you have to do that.

I promise they are so good of course if you like romantic or action films!

My house

I live in quite a big house. It is white. I really like this colour. I have room with my twin sister. She is a little bit annoying but my twin brother is so flipping. We are triplets and it sometimes isn't nice. In our room we have a small balcony. I really like it. In my garden I have a trampoline and a lot of flowers. I don't like them very much because I must help my parents with them. Near my house there is my school and the park.

My school

My school is big and it means that the school court is also large. It is awful because we have to run a lot. I hate it .My favourite school subject is history and my hated is maths and physics.

My school is so nice. There are a lot of nice people. I really like it.

A scenic mountain landscape under a clear blue sky. In the foreground, a stone path leads through a field of vibrant pink flowers. Several traditional wooden huts with dark roofs are scattered across the middle ground. The background features majestic, rugged mountains with green slopes and rocky peaks.

Thank you for your
attention

I think You all
know
everything
about me!
Bye
