

Warsaw, 26th November, 2020

Dear Sir,

I am writing in reference to the offer of a new dental assistant. I can assure you that I am a perfect candidate.

I graduated from the A. Frycz Modrzewski High School in Warsaw. After finishing school I've decided to take a gap year, because I was pregnant.

I used to work at Family Dental, but after a year I had to quit to focus on Oxford University. I strongly believe that after two years I am still able to assist.

My work experience is very good. My journey started since I was 10 years old. My parents were dentist. I always liked helping them with work. When I was 15 I started to assist them. For years I was gaining my skills and experience. I have always loved doing this work!

I am a responsible and patient person. I always try my best to help people and never give up. I am also communicative. In my previous job, I made great contacts with everyone. As I see it is really important to communicate with the group. I always try to avoid getting into troubles.

Working for you, would be a pleasure for me. I look forward to hearing from you soon.

Yours truly,

Weronika Załuska
