

## 1st smart week in Nipiagogio Rizariou of Trikala.

1. We started with simple activities about the use of computer and we explained to children its function.

2 . We started paying games and puzzles

**3. Children drew themselves by the use of drawing tool of computer**

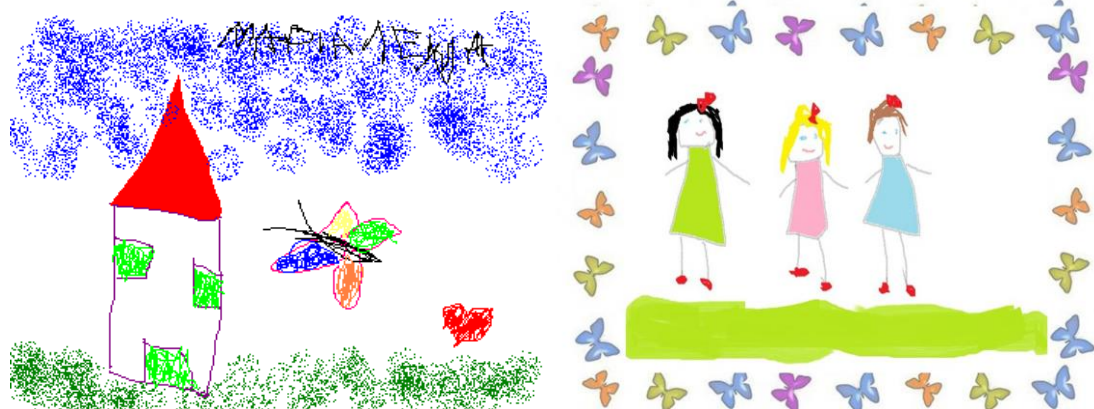

**4. They drew also their family and their homes.**

And the results are more beautiful than we expected until now

4. Children also learned the function of tablets and have start their exercise with this .
