I.I.S. PADOVANO CORINALDESI

PRESENTATION AND ESCAPE ROOM

on March 22 we connected with students from other countries we introduced ourselves to the other schools then the teachers divided us into groups to make an escape room where you have to open a safe but to be able to do it needed a code and then we had to answer questions in 5 stages several of them each had a number that then had to be inserted in the safe

Davide Caliri

for me this project was interesting and fun but very hard to communicate the other students because I didn't always get the right words and despite the difficulties we understood each other and we completed the game

ziyed ferchichi

For me this project it was really really
funny and I hope all student can do this
experience

Alessandro paradisi

it was an experience that initially

I didn't count much on it

but after I really enjoyed it

Everyone in my group collaborated to escape

We spoke with a different English between us but we

understood each other anyway

An experience that I would do again

Cristian Paoloni

It was a good experience, at first I thought I wouldn't like it but I was wrong, it was a very nice thing. The best thing was seeing the faces of guys of other nationalities. I would do it again!

Maddalena francoletti

it is a wonderful experience, initially I did not think I would like it, but then I had a lot of fun. It was nice to share a language and our knowledge

Sofia Gullà

Initially I thought that I would not be able to understand what they were saying to me and that I would not be able to express myself, but then I found myself very comfortable in the group and it was easier than I imagined. Finally, my group and I managed to solve the escape room by working together
