

EUROPEAN UNION DAY CELEBRATION

During the SPORTS HERO WEEK, held in Italy from 6th to 10th May 2019, our Erasmus+ international team had a nice opportunity to celebrate THE EU DAY, all together and in two different schools.

On May 7th, in an international class at Torricella, our Erasmus+ project coordinator, Mrs Monika Sołtysiak had a very interesting lesson with about students and 14 teachers involved in the mobility to remember what are the important aims of European Union and European Projects. We talked about the EU history, its symbols, and the dates of accession of Italy, Spain, Cyprus and Poland. Those days were especially important for the Cypriot and Polish partners since they celebrated the 15th anniversary of accession.

On May 9th, during the visit to the Valle Castellana school, all the 42 students prepared a beautiful welcome show to their friends involved in the Erasmus+ project (32 students and 12 teachers) playing instruments and dancing a ball dedicated to the European Union, precisely on the day of its anniversary.

At the end of the musical performance the school's smallest pupil, dressed up with a costume as Europe, symbolically crowned Mrs Monika Softysiak, the Polish coordinator of our Erasmus+ project.
