DESCRIPTION OF THE PROJECT

The project is composed by six different schools located in Italy, UK, Turkey, Bulgaria, Greece and Spain. All of them are teaching Business and Entrepreneurship subjects in their schools. In this project we will pay special attention to cooperative work and communicative skills. Working in groups in order to achieve a greater learning. Showing the goals via different presentations will reinforce the communicative area. Education will be carried out following the logical process of thinking. Researching projects are a way of learning to learn in cooperation where all the above circumstances will be met
