

# E-commerce for Start-ups

## Campbeltown Grammar School THE UK

# Getting started

- **To start off our project, the whole of our year group met to decide on a product to make**

## **Change in product**

- **We were going to make traditional Scottish tablet but changed to making biscuits, because we felt that we could be more creative with flavours and shapes**

# Local products

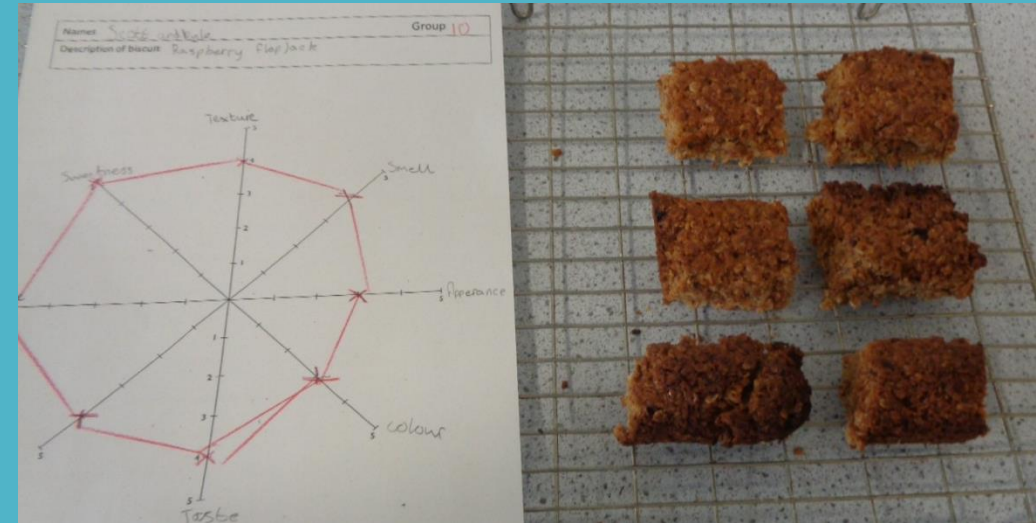

- **We tried to use local products, where we could, in the making of the biscuits.**

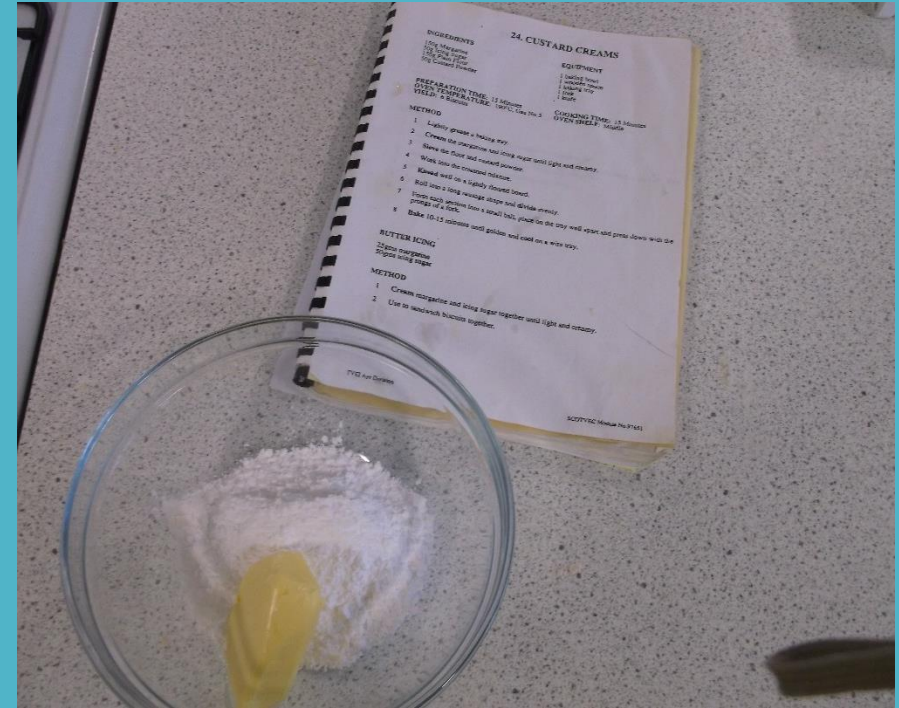

# Creating our product

- **After researching biscuit recipes, we started our prototype biscuits.**
- **Once the biscuits were made we would evaluate them using a star diagram.**

# Developing the product

- **After evaluating our biscuits, we would change parts of the biscuit that we didn't like, to improve our biscuits.**
- **We would also ask for our classmate's feedback too.**

# The finished product

- **After evaluating our biscuits and making the changes needed, we were left with our final product.**

# What we have done in computing

With Greek translation

Τι κάνουμε στην Πληροφορική με την ελληνική  
μετάφραση

# What We have done in Computing S3

English

We have regular meetings of our groups to discuss the biscuits and website design and marketing plans.

Recently we have been designing a Website for our teams biscuits to be sold and marketed on.

Ελληνικά

Έχουμε τακτικές συναντήσεις των ομάδων μας για να συζητήσουμε τα μπισκότα και το σχεδιασμό ιστοσελίδων και τα σχέδια μάρκετινγκ.

Πρόσφατα σχεδιάζουμε μια ιστοσελίδα για τα μπισκότα των ομάδων μας που θα πωληθούν και θα διατεθούν στο εμπόριο.
