Aksaray is a combination of nature and culture
at the door of Cappadocia region
with ten thousand history .

Cappodocia Regin,60 million years ago,was formed by the volcanic mountains of lava and ashes in the layer formed by the wind and wind for millions of years.

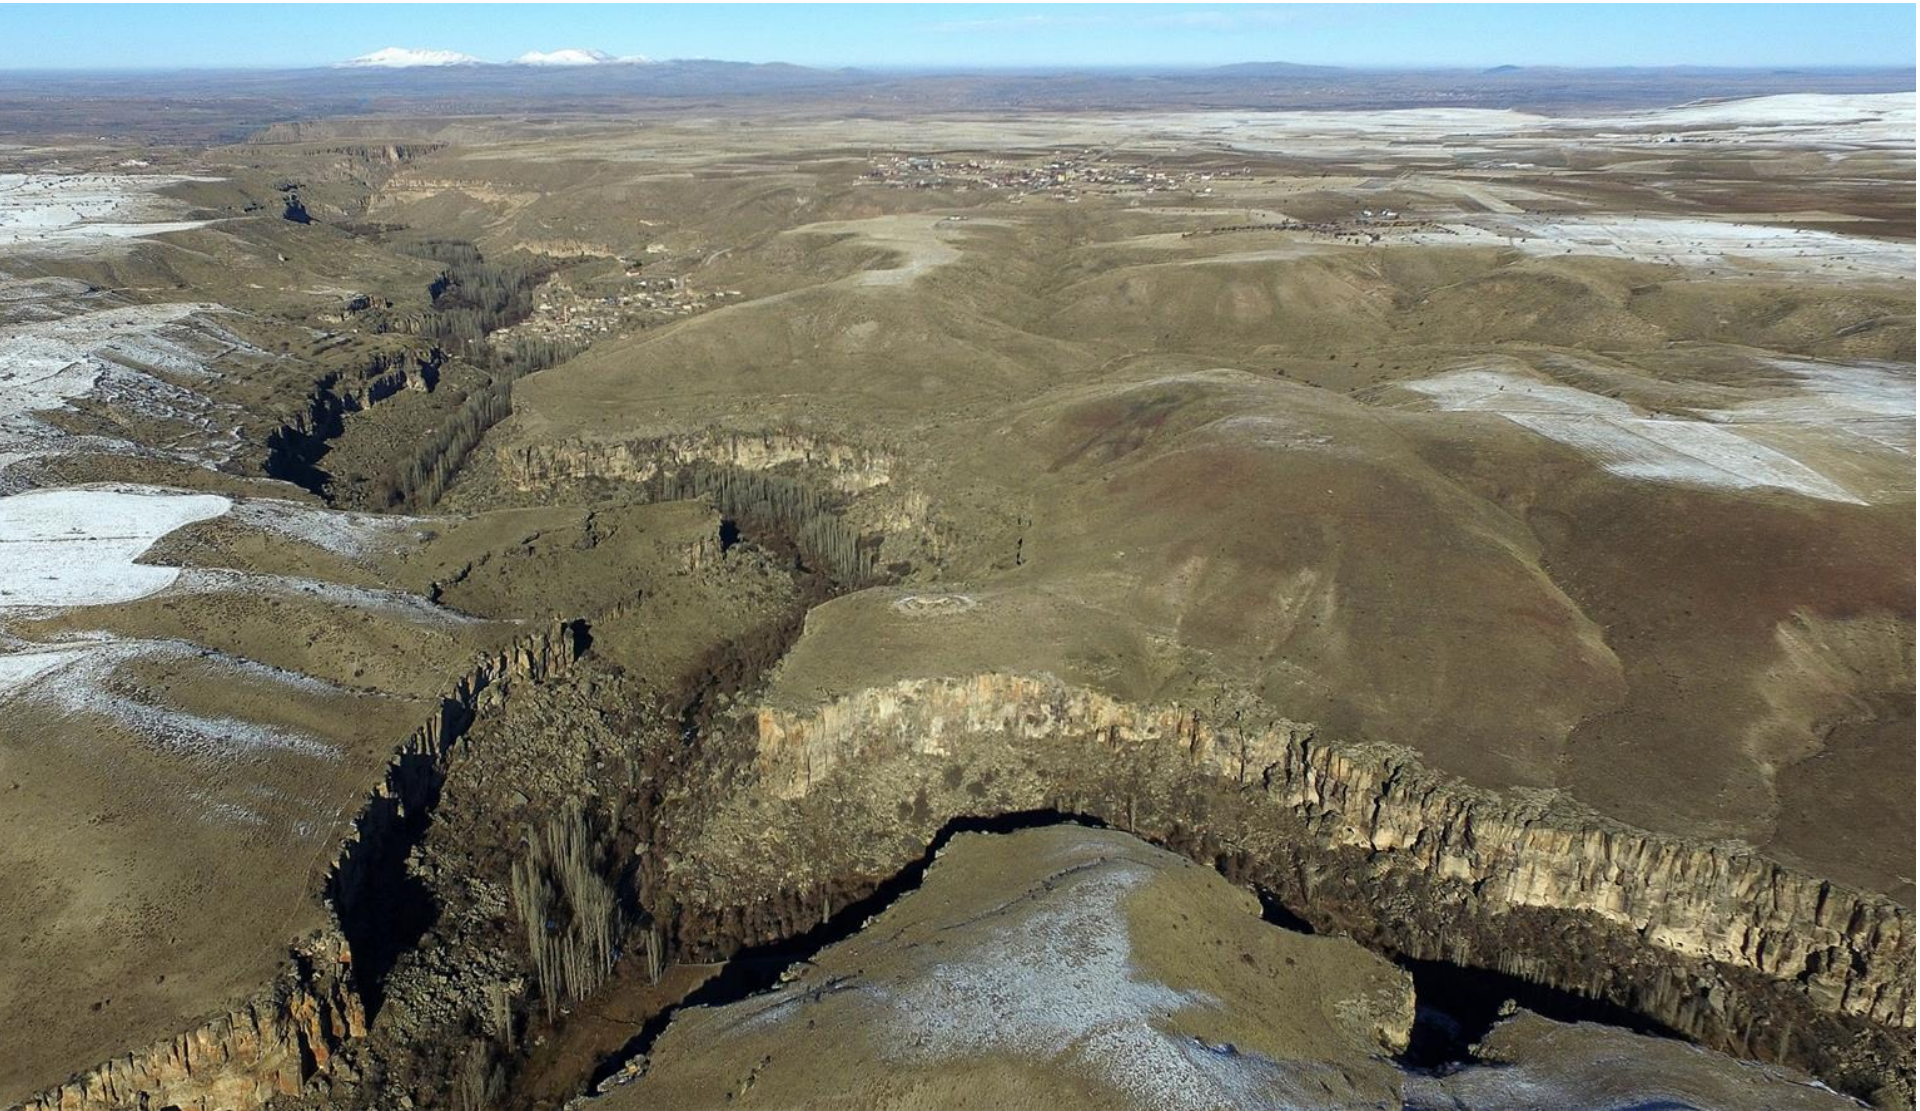

Mount Hasan, which is about 3300m high, is a volcanic mountain in the city of Aksaray.

It is getting more popular every year for paragliding championship at the mountain.

Ihlara Valley ,which is 18 km long, is the second biggest canyon in the world with a dept of 100m.

It is believed that the valley housed more than four thousand dwellings and a hundred cave churches decorated with frescoes. Around eighty thousand people once lived in Ihlara Valley.

It is very pleasant to walk through the Ihlara valley by the vineyards, poplars and pistachio trees to the soothing sound of the rushing water

Aşıklıhöyük, one of the first civilized settlements in the world.

It has the history of 10.000 years.

It is known that first brain surgery had been done in this settlement.

Aksaray Museum is hosting many of the historical artifacts from ancient Anatolian civilizations

Especially 8000 year old child and cat mummies are examples of popular artifacts.

Salt Lake

It is the second largest lake in Turkey. The salt rate is about %40 and during summer the surface is full of salt.

The lake is also the incubation area for flamingos. More than 20.000 flamingos visit the lake each year.

Thanks for your listening.
