Mokyklos ir tėvų bendradarbiavimas tvariam švietimui

Vaikai klausia—tėvai atsako

Lietuvos, Rumunijos ir Ispanijos mokyklų 5-8 klasių mokiniai užrašė klausimus, kuriuos norėtų užduoti savo tėvams. Iš visų klausimų atrinkome įdomiausius ir pateikėme juos tėvams. Trijų šalių mokytojai lygino ir analizavo gautą medžiagą, o aktualiausius mokinių klausimus ir įdomiausius tėvų atsakymus sudėjome į šį lankstinuką.

Dėl ko pykdavotės su savo tėvais?

Dėl to, kad neišleisdavo pas draugus, dėl tingėjimo mokytis, dėl namų ruošos darbų.

What did you use to argue about with your parents?

Our misunderstanding was based on my stubbornness, laziness to study. That's why I couldn't go out with my friends. In the fact I didn't help my mother in the house.

Kai buvote mano amžiaus, kaip atskirdavote gėrį nuo blogio?

Padėdavo suaugusieji, o kartais pasimokydavau iš klaidų.

When were you like me how did you make the difference between good and bad?

With the help of adults and learning from mistakes.

Kodėl tėvai kartais gamina tai, ko aš nemėgstu?

Tėvai gamina tai, kas yra sveika. Pavyzdžiui, gamina žuvį, nes žuvyje yra reikalingų tavo organizmui baltymų. Valgydamas sveiką maistą, augsi didelis ir būsi sveikas.

Why sometimes my parents cook something that I don't like without asking me first?

Because parents have to follow a healthy diet, including fish. It has a lot of proteins and it's good for growing.

Kodėl yra svarbu valgyti visai šeimai kartu?

Šeimoje buvimas kartu yra labai svarbus. O juk būti kartu yra ir labai smagu!

Why the meal with your family was a special moment?

It was important to take the meal together with the family because the family is the most precious and the most beautiful moments are in family.

Ką jaučiate, kai matote, kad man sunku?

Labai noriu padėti ir palengvinti bet kokią našta, kuri tave slegia. Visada palaikau ir noriu, kad būtum laimingas.

How do you feel when you see, that I have some difficulties?

I support you, I give you advice and I teach you to be confident.

Koks jūsų mokytojo idealas? Ką vertinate labiausiai?

Teisingumą, atsidavimą mokiniams ir darbui klasėje.

Considering you had a teacher as a model, what did you appreciate at him?

I appreciated the correctness, the attachment to the students and the way they worked in the classroom.
