Which risks do we take online?

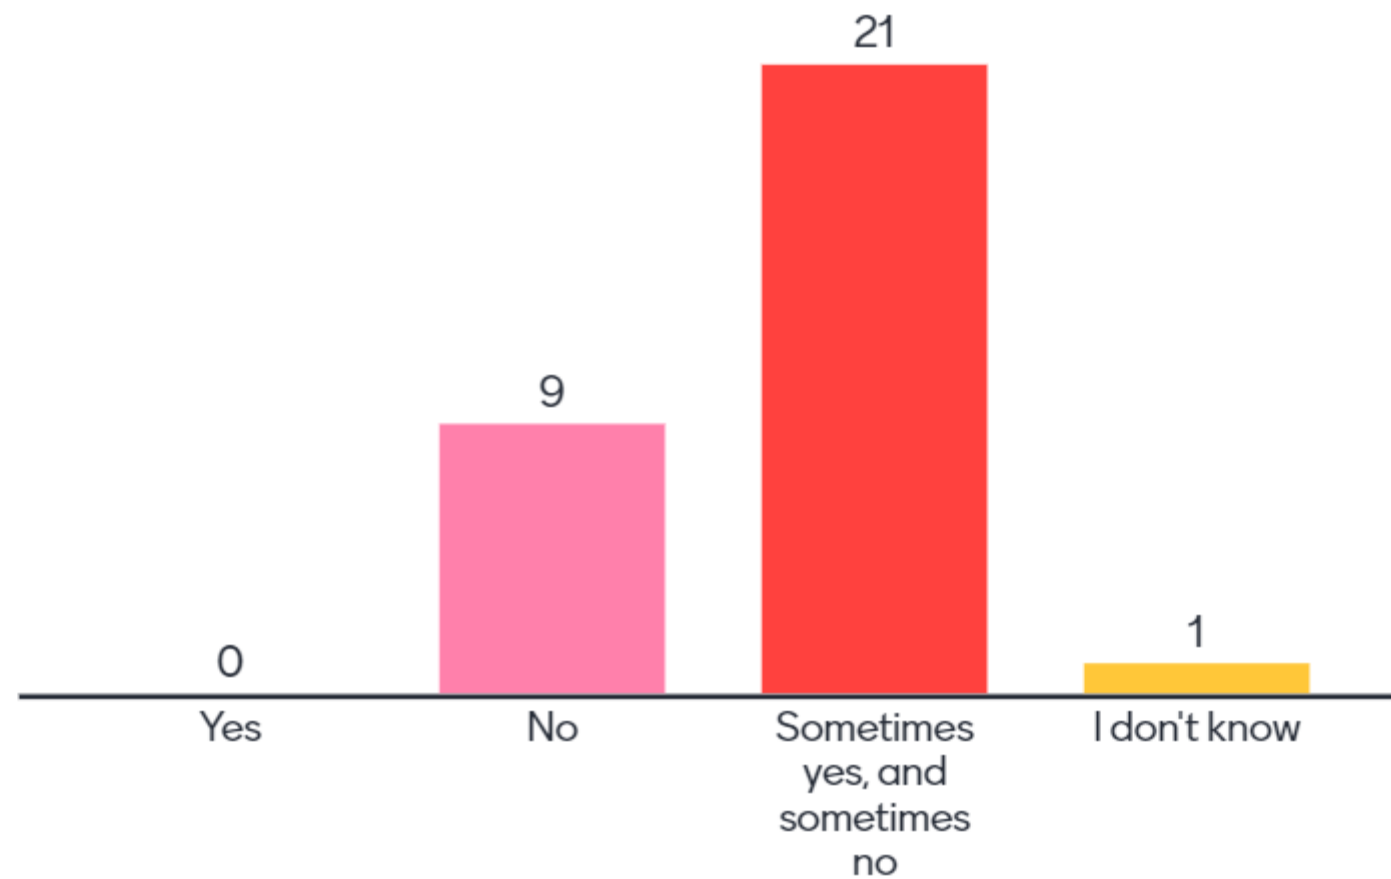

► Our behavior is the same online and offline?

Go to
[menti.com](https://www.menti.com) and use
the code 4920 1085

Our behavior is the same online and offline?

Is there a clear distinction between the two worlds?

How should we act?

► **Group Work:**

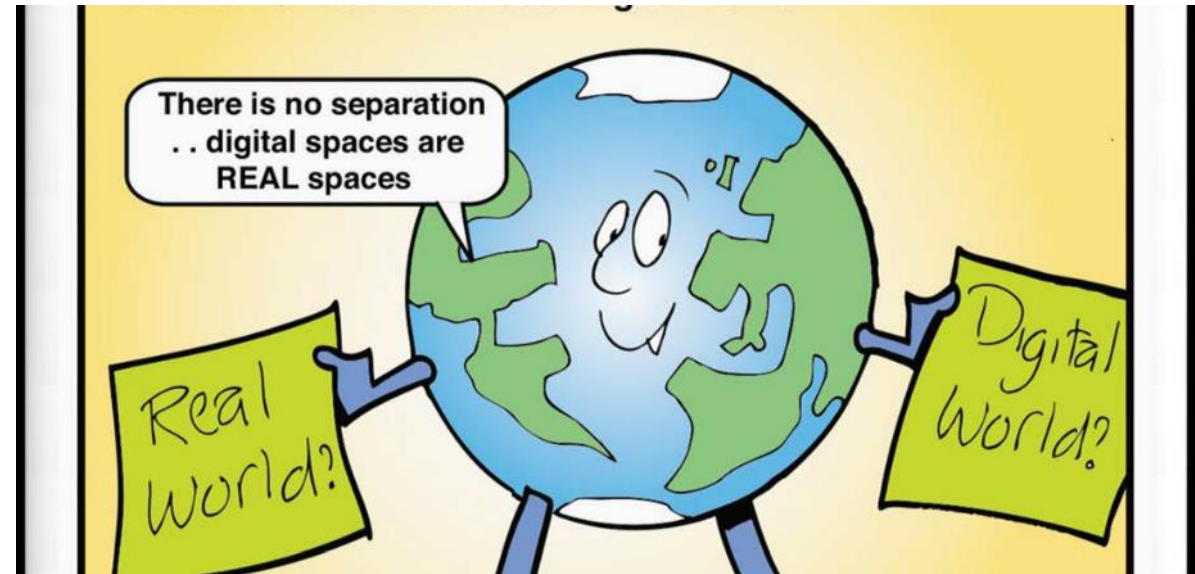

► We will divide the group in two teams –

One will defend the position that when we use social media there is a clear separation between the two worlds

The other that there is no evident separation when we use social media.

► In teams you will discuss your point of views (during 15 minutes) and afterwards each team will have 3 minutes to defend their ideas.

Afterwards each team can make questions to the other team, one at a time.

Cyberbullying

How to educate for the internet - a handbook for parents

In the handbook, parents receive advice on what risks exist for their children on the Internet, how they can recognize them, and how they can teach their children to recognize and avoid them. The printed version of the handbook will be disseminated to parents attending Safe.si trainings. It will be also disseminated to Slovenian Centres for Social Work and some other institutions. Additionally, the handbook is available in pdf version on the project website, where parents can also order a printed copy for free. The online version will be disseminated via Safe.si website as well as through social networking sites, such as Facebook, Twitter and Instagram.

Leaflet "Mental health and the internet"

IE tool Slovenian Univerza v Ljubljani, Fakulteta za družbene vede

The leaflet contains tips on how to take care of your well-being when using the Internet and how to maintain a positive attitude towards it. It is intended for young people. At the moment, only the online version of this leaflet is available. The online version is disseminated through the Safe.si website and posted on Facebook and Instagram. We also included this leaflet in SID 2022 online package for schools. Our goal is to reach as many young people as possible. The leaflet is therefore available online as a PDF and can be downloaded easily and free of charge. The text (at the moment only available in Slovenian) needs to be adapted to local languages.

Leaflet "Online challenges - that they will not give you a headache"

Why should you be who you are?

📌 Group Work:

📌 We will divide the group in teams of five students that will debate the importance of acceptance and will elaborate a infographic on that matter
