

Diary Vlog

The week I spent in Italy in ERASMUS+ was the best week in my whole life. This experience has changed the way I see the world and also the way I see myself and my future. I had lots of fun in the activities that the school organised, I met amazing new people, I learnt about other cultures and I improved my English skills, all at the same time.

This trip also made me realise that the world is more than just Portugal and that Europe is our "country", a big one, full of different cultures. There aren't enough words in this world to explain the importance of this week in Italy to me. I can only say that it has changed me forever and I will never forget it. I feel the luckiest person alive and saying "thank you" to the Portuguese and Italian teachers and to my host family will never be enough to show my gratefulness.
