

# ERASMUS PROJECT- ITALY'18

When the results of the selection for this trip came out, I had no idea what I was getting into and I had no idea how big this project was... Actually, I think I still don't.

The people who had already participated in an Erasmus programme, told me: "It's going to be one of the best experiences of your life and, when it's over, you'll want to go back." It's not that I didn't believe them but I thought that the people were overreacting when they said that it was going to be one of the most incredible experiences of my life. Now, I totally agree with the people who told me that because, and for self-experience, going on Erasmus trip was one of the best things that have happened to me.

Besides the journeys from one place to another and all the activities that the Italian school organized for us to enjoy the time while we were learning, the most "important" thing is the friendship that we made with everyone. With them, we tried to live in one week all the things that we live with other friends in a lot of years, which has made this new friendships stronger. The people I met were incredible and, without all of them, this experience wouldn't "taste" the same. I have to thank them all for everything and, sincerely, I hope that they keep the same love for me that I keep for them all.

About the "rest", I want to thank the opportunity that was given to me to live an amazing week in a dream country (at least for me) and thank especially to teacher Célia, teacher Paula and teacher Pedro for treating us like their kids and for doing everything to make this possible. I expect I've reached the expectations. Thank you for all.
