experience again

the kids from the foreign countries had interacted more with each other

I met new people, children from other countries and we exchanged experiences

Need to be better organized at the farewell party, was presentations of each country. It was noise, was too long, was sometime distracting to wait so long before other country prepares.

Had more free time to enjoy town and time with host family

thank you so much it was a great experience

I think activities that have the kids interact more with each other would be great for the future experiences. For the rest, it was all perfect.

I would have liked it to be less one day and the first day we had a very tiring trip not to have a sightseeing in such a beautiful place as Palermo, because we all were so tired!!!

None

Great job! Many thanks! Planning and timing could be better but no problem to enjoy relaxed Italian culture!

Earlier ending classes at school ,e.g. until 15

I think it would be very good that in the first day , to have a meeting to get to know each other... parents with parents ... parents with teacher .. from all other countries.

Organization

More dinamic activities for children

We really liked this experience, I would not know how to improve it, it has been unforgettable

A lot of activity on Fresh air in the garden

I wish there had been more activities for the children, they were scarce and they were not very appropriate for the age of some children. There was a lot of time for the activities which were done in a moment. I think that the activities have to be focused on promoting reading and not all of them were like that.
