BLUE FLAG

Sea and surroundings

Moustapha

I like to **swim** in the **summer** but I don't like going where **seaweed** are on the **rocks**

Noemi

On the **coast** in Livorno there are many **pin**es and **tamarisks**, but also **palm trees**

Althea

Near the **port** there is also the **shipyard** where the **yachts** are made.

Alessia

Our **coast** is **rocky**

Beylyssa

I like **mussels** and **clams**; they are in our sea

Anna

is the sea in front of our city: it's the **Mediterranean Sea**

Samia

On the **rocks** there are **sea urchins**, **crabs** and even small **shrimps** near the **coast**

Marjam

I go to the **beach** in the **summer**, in Tirrenia

Rayan

There is also the **port** on the sea

Rachele

And many **ships** sail on the sea. We always see them at the **port**

Edoardo

At the sea there are **rocks** or **sand**. We in Livorno have rocks but in Tirrenia there is sand.

Alice

There are **cruise ships**, **cargo ships** and **freight ships** ... and also **ferries** to the islands

Leonardo

Sometimes there are **currents** in the sea that push you far away and it is dangerous to swim

Abraham

Is water, but **salt water**, and we can even bathe in it when it's hot

Emily

Sea waves are dangerous when the sea is **rough**

Tommaso

Curls hurt a lot if you put your foot on them

Mia

Yes, there are also **sharks** and other dangerous **fish**, but there aren't any in our sea

Greta

In the Earth there is more **water** than **soil**

Diego

It is water that forms the **Mediterranean sea** but also the **Oceans**

Jacopo

When the sea is **rough** there are **waves** and sometimes they are very high

Alessia

When I go to the **beach**, I like to collect **shells**. And my dad makes **clams** in the sea.

Jasmine

and if you drink it (the sea water) by mistake it is **very salty** and the taste is disgusting

Nicholas

In the sea you can also find **islands** and here in front of us we have many: Elba, Gorgona, Pianosa ...

Serena

Many **animals** live in the sea water ... but also **plants**, such as **algae**

We started with a question

Teacher asks, children respond using Padlet

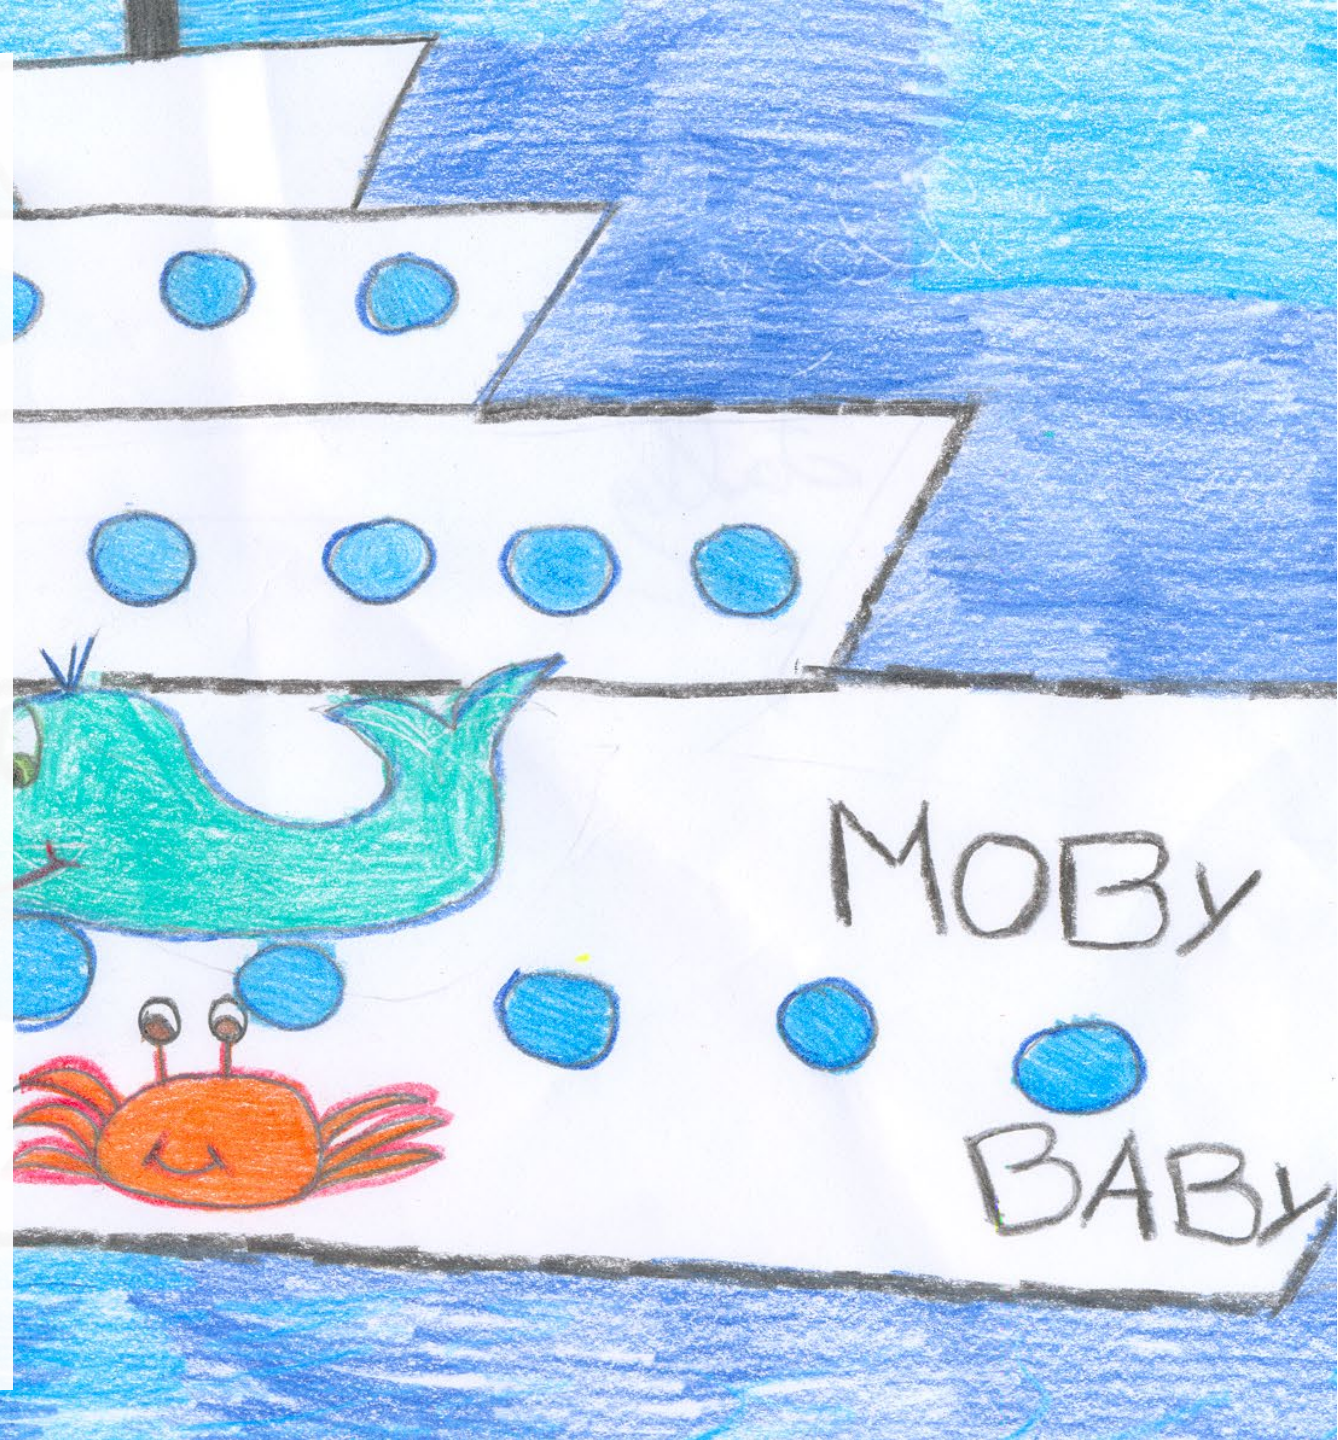

Then we chose the keywords of the sea

We have chosen a title for each group of words

- Natural parts of the sea: coasts, islands, waves, currents, rocks, sand, beach
- Anthropogenic part of the sea: port
- Types of sea: Oceans, Mediterranean sea
- Plants above the sea: pines, palm tree, tamarisks
- Plants under the sea: algae, plants
- Animals in the sea: mussels, crabs, shrimps, clams, sea urchins, fishes, shark
- Actions in the sea: to swim, to fish

We added another title and some words

- Animal out the sea: pelicans, seagulls, cormorants

We have analyzed the problems of the sea

The sea covers 72% of the Earth and provides us with oxygen, but it is now in danger.

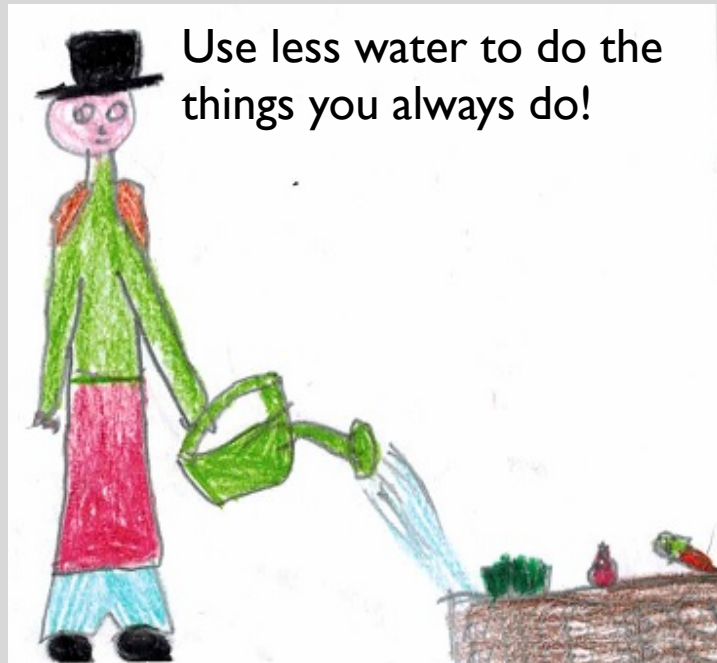

WE LIKE THE SEA CLEAN AND COLORED BLUE

Let's stop wasting water!

WHAT CAN WE DO?

Turn off the tap when not needed!

Do not take the animals out of the water and do not play with them

Reuse empty bottles

IF YOU PROTECT YOUR SEA, YOU WILL ALWAYS HAVE A BEAUTIFUL BLUE SEA!
