

JANUARY REPORT OF ACTIVITIES

One month has passed since we started the project: working very hard, showing both cultures, towns and squares, participating in the forum, starting to chat with each other, even though some persons took their time to respond... But a new month starts and with it also a new task. In this case, both sides had to make a "Ted Talk" per group showing in a English video different places of both towns or just teaching others how to make some typical recipes.

On the Swedish side, every five-members group made a short video (2 minutes average) talking about important and famous landmarks of Karlskrona, showing incredible views, the square, the churches, their Karlskrona buses... Also, some students have taught us how to cook typical [Swedish meatballs](#) causing multiple discussions between Spanish students debating which ones are the best (my grandmother's meatballs, of course!).

On the other hand, Spanish students, have also made a five-members video Ted talk about a particular theme related to Sant Cugat and its area. They have delighted us with an incredible five-minutes-average Ted Talk (in some cases a little bit boring, talking from a producer viewpoint) explaining their most popular sports, talking about the Mediterranean Sea and beaches, showing their green areas...

Of course, we have continued sending messages via etwinning, Twitter, WhatsApp, Snapchat... knowing more of each other, seeing that we are not as different as we thought before we started this project and, obviously, improving our English and Spanish.

A Group of Spanish & Swedish Students

Karlskrona / Sant Cugat del Vallès
