On line exercisers

Personal website

Specific Android/iOS/Windows apps

Videos

Free Specific softwares

Applets

Commercial specific softwares

Collaborative platforms

Social Networks

Other :virtual wall (padlet).....

Augmented Reality

Evaluate your level in English from A1 to C2 :

C2

How do you expect an international project to have an impact on your Ss social competences?

I'm confident in this international project for giving me the chance to discover tools and ressources from my colleagues from abroad. I think we'll be able to communicate though social networks. It will make me aware of their teaching methods. Then, this project will help me broaden my mind to their culture and way of life, their do's and dont's, and their approaches of social relationships.
