BlaBla

V.O.C.

United East Indian Company

We went with the class to the national archive in The Hague. The theme was the U.E.C. (founded in the 17th century) We went inside where we got the instructions what we are going to do. We watched a movie and then we went to a room where we got a tablet with questions that we needed to answer. We saw a lot of things about the U.E.C f.e. (books, clothes and spices).

When it was over we needed to make a video of the characters we were. Then we needed to assemble at the exit, then we went back to school with the bus that was not the luxury as we expected.
