

**BLA BLA**

**Scuola primaria Viale  
Abruzzo classi 3A -3B**

In the big garden near our school there are many kinds of trees among which the big “Pioppo bianco”. We often go out in the garden, to observe nature, leaves, stones and to hug trees.

We take deadwood and dry leaves for our laboratory at school and we express our emotions through natural elements.

We have fun in the garden with our parents and we involve them in workshops to improve our senses.
