

Bla Bla
Greece
News from March 2017

The most important news from March for our school was the educational trip to Athens (11,12,13th of March). Our 6th Graders visited Athens and stayed there for 3 days. Our schedule included a visit to the archeological site of the **Acropolis** (the Parthenon), the modern **Museum of the Acropolis**, the **Greek Parliament**, the museum of the Old Parliament, the statue of the Unknown Soldier, the Botanical Garden and the recently built state-of-the art building of the Stavros Niarchos Foundation.

For the most students, this was their first visit to the capital of Greece. We were all very satisfied from our tour guide in the city of Athens and our experience from the city night life as well as Athens' monuments.
