## CITO TOETS

Hihhi. I am Xanna and I am Neelam. We are going to talk about tests and advice.

We received a preliminary advice in group 7, for a certain direction.

We have had many tests last

month, but not just keys but cito tests, a test for all pupils in the Netherlands who go secondary.

Cito tests are all teaching materials that you have had in a booklet. Everyone in class [group 8] find it exciting and so are we. After primary school you go to secondary school. But you have to choose a school yourself, so there are open days. Open days mean that you go to a high school in the months of January / February. We received our advice on Friday 8 February, and almost everyone was satisfied. So you should already know about your top three schools where you would like to go. Why you should choose a top 3 schools is because: if you are not accepted at the first school, your second or third choice will be chosen
