

## Italian BLA BLA journal May 2017

On May the 4th, all the third and fourth classes of our Institute went to our Secondary school in order to attend a big event organized by an association, “Waste travel”. The association talked about environment care and recycling. The two people involved in the associaton project

presented a character, Mr. Bleba a rapper who introduced the topic “Recycling” in a funny way.

You can listen to the song following this link

[https://youtu.be/n0quS\\_Fx4f4](https://youtu.be/n0quS_Fx4f4)

Students played games on a booklet the association provided for the event. In the picture you can see the booklet.

The best part of the event was the virtual tour in the system for waste collection. Students had lot of fun wearing specific glasses called “visori” (viewer). They allowed

students have an interesting tour among waste and recycling sites: paper, glass, wood.
