

GREECE

BLA BLA MAY 2017

May is our favorite month because we usually go on excursions. This time we chose to go to a farm, 30 km away from Thessaloniki. We were very happy because we would go on a bus and we would stay for the whole day there. The place is called "Agnanti" and it belongs in the Prefecture of Thessaloniki. Fortunately, the weather was fantastic and we did all the activities our programme included; some students went horse riding, others did canoe in the lake and some others chose the shooting sports. The farm was very big and the children had lots of fun with the animals that were kept there and with a big variety of activities. We had lunch in the tavern which was in that farm. Parents were allowed to accompany their kids in that excursion, so it was great to be a big family!!

When we were back at 17:00 we were really exhausted from running and playing around with our friends, but we were also happy that we had such a wonderful time outside the classroom.
