

We have been in Scordia between the 25th of November and the 30th of November.

**Sunday (25<sup>th</sup> of November):**

We arrived at the Catania airport around three o'clock in the afternoon and we met our host families for the first time.

After that, we went to stroll around the city to see some of the most famous monuments of Catania.

**Monday (26<sup>th</sup> of November):**

We were introduced to school. We had an official welcome and an icebreaking activity, in which we were divided by teams and played quite a few "minigames".

We were also discussing about the students skills and working on the portfolio.

In the afternoon, we played football with the Italian and Maltese boys to get to know each other better.

**Tuesday (27<sup>th</sup> of November):**

We worked on the project logo with an Art teacher.

We visited the Etna volcano, the main attraction of Sicily. It was snowing there but we were prepared for cold. We've been in a place where bees are raised and honey and other products are produced for sale but I didn't like it because I am afraid of bees.

**Wednesday (28<sup>th</sup> of November):**

We have been in Enna and we have visited the Kore University of Enna that has one of the biggest and well-organized libraries in Europe.

We had some free time in Centro Sicilia Outlet where we had lunch and we bought some clothes and gifts to bring to Portugal.

**Thursday (29<sup>th</sup> of November):**

In the morning, we visited Oranfrizer, an orange factory, where we tasted a delicious orange juice and we were in the Research Centre for the citrus crops too.

Besides this, we visited Caltagirone, an old but beautiful city, where we went to a ceramic laboratory.

**Friday (30<sup>th</sup> of November):**

It was the last day in Italy.

We said goodbye to those we met this amazing and unforgettable week. It was really difficult to say goodbye to some people because I never thought I would be so close to them.
