

# My Erasmus+ Journal

9<sup>th</sup> – 16<sup>th</sup> November 2019

## **9<sup>th</sup> November**

At 1pm we had to be at the airport. When we arrived in Portugal Lisbon we got into a taxi and went to the hostel where we were going to stay. After that we went to our rooms. When we were done we went out to dinner at a nice restaurant.

## **10<sup>th</sup> November**

We went to Lisbon. We saw many beautiful houses and monuments. We also went shopping in their market and learnt that they sell products such as handbags, bags and bracelets. All of their products are made from cork.

## **11<sup>th</sup> November**

We went to school where we met a lot of new people. We met all the other students involved in the project. They are from Portugal, Italy and Germany.

## **12<sup>th</sup> November**

Today we worked on the project. We had to sell a strange item to our audience. We also had to sell ourselves during an interview with our friends. I was very shy during this activity since we were working with students from the other countries. However, it was great fun.

## **13<sup>th</sup> November**

We went on an interesting boat trip on the Tagus river.

## **14<sup>th</sup> November**

Today we went to the aquarium and we also visited the Microsoft Office. We were given some time to buy souvenirs for our family. I also bought something for myself so that I can remember my trip to Portugal whenever I look at it.

## **15<sup>th</sup> November**

Today we had to say bye to all the other students including Carolina, our new friend. We later went to Sintra where we visited a beautiful castle called Quinta de Regaleira. We also walked around Sintra where we experienced some of the most amazing sceneries I have ever experienced.

## **16<sup>th</sup> November**

Before we went to the airport we visited the centre of Lisbon one last time. A few hours later we went home.

This trip was amazing. I loved meeting new people and visited a lot of new places.
