Wednesday 20th October

- Meeting at Sartrouville train station at 8.30 am
- Day at the Good Planet Foundation (Yann Arthus Bertrand Foundation)
- 2 workshops in English ("Energy programme" for everyone / 2nd to choose between "Zero waste" and "Climate change")

***ZERO WASTE: REDUCE FOOD WASTE**

Bread, fruit, vegetables, meat: every year, the French throw away the equivalent of 30kg of food. This is not only food waste, but also of resources, energy and human means that it is time to stop. The Foundation's School brings you explanations, tips and recipes to become zero waste yourself!

***CLIMATE CHANGE**

Is it hard to understand everything about climate change? The climate fresco is there to help you! Thanks to this participative game, in teams, students will learn about the causes and consequences of climate change. The aim is to create the most attractive and clearest climate change mural! The young people will then be given time to reflect on to identify possible solutions.

***ENERGY PROGRAMME - ESCAPE GAME**

What is energy? It is all around us every day, energy is elusive. The Good Planet Foundation proposes to participants to get to grips with this theme through a series of games puzzles and real-life situations. A unique experience where seriousness and fun are combined! Students will participate in a unique experience in the form of life-size role-playing games.

Picnic provided by the families

-Return to the station at around 5.30/6 pm

Evening with the host family

Thursday 21st October

Day at school

- Meeting at the school at 8.30 am - different workshops will be held at the school.
Morning briefing: Participants will be introduced to the workshops of the day and given a precise schedule. They will also be assigned special missions to gather material for the final, multimedia workshop. Each workshop lasts 55 min.

-Meeting with a representative from the NGO World Vision: A spokesperson will come to present the different commitments within a humanitarian NGO, and its various actions: development assistance, advocacy with institutions, emergency interventions. It will also be an opportunity to discover how an NGO works.

-Meeting with the president of the charity "Une femme, un cancer, une espérance" (= "a woman, a cancer, a hope"). A volunteer will explain how her charity supports women with cancer throughout their treatment (gentle gymnastics, therapy, meetings), and the events of the Institut Curie: "Octobre Rose", "Une jonquille contre le cancer"/A daffodil against cancer. An opportunity to discover how a charity works.

-Workshop with the pupils of the Green'Evariste club: We will present our vegetable garden, our educational pond, and explain to our partners how to make and plant seed bombs.

-Workshop dedicated to brainstorming about a script for a film that we will make throughout the project during the mobilities: agree on a format, develop a draft script/screenplay

-Presentation of the tutoring project by the Polish students: this is a programme set up during the confinement, which allowed pupils to help each other with their homework. The programme won an innovation award in Poland and our Polish colleagues are keen to make their project international.

-Multimedia workshop: Participants will post/publish various productions on social media and etwinning, illustrating the activities of the day.

Lunch in the canteen

End of the last workshop at 16.40

Evening "Paris by night"

-Meeting at the school at 8pm for a Paris by night tour by coach with an English-speaking guide

-Return to the school around midnight
